* Mitsubishi Corporation will hold an earnings conference in Tokyo for the six months ended September 2014 on November 11, 2014 (Tuesday) from 16:00 to 17:30 (Japan Time), inviting institutional investors to join. The conference material can be accessed live in Japanese from the following

URL: <http://www.mitsubishicorp.com/jp/ja/ir/index.html>

(English interpretation of the conference call will be posted in the Investor Relations section of our web site as soon as it becomes available.)

1. Qualitative Information Concerning Consolidated Operating Results

(Consolidated net income, as used hereinafter, refers to net income attributable to owners of the Parent.)

(1) Qualitative Information Related to Consolidated Results of Operations

Summary of Results for the Six Months Ended September 2014

In the first six months of the year ending March 2015, the U.S. economy continued to experience a solid recovery, with economic activity rebounding from a downturn caused by the impact of a cold wave. In Europe, there were continuing signs of an upturn in overall economic conditions, albeit at a gradual pace of recovery. Certain emerging nations experienced a slowdown in economic growth. The Japanese economy followed a moderate recovery path, despite a pull-back from last-minute demand ahead of the increase in the consumption tax rate.

Against this backdrop, revenues for the first six months of the year ending March 2015 increased 104.0 billion yen, or 3% year over year, to 3,804.0 billion yen. This increase was mainly due to higher transaction volumes and foreign currency factors.

Gross profit increased 14.9 billion yen, or 3%, to 571.3 billion yen, reflecting mainly higher sales prices in the livestock business.

Selling, general and administrative expenses increased 25.2 billion yen, or 6%, to 480.6 billion yen, due mainly to the impact of business expansion (new consolidations).

Gains on investments decreased 26.9 billion yen, or 78%, to 7.7 billion yen. This decline mainly reflected the absence of mark-to-market gains on shares recorded in the previous year.

In other P/L items, finance income and other (expense) income-net increased mainly due to higher dividend income from resource-related investees, as well as to an improvement in foreign exchange gains and losses.

Income from investments accounted for using the equity method increased 20.9 billion yen, or 20%, to 124.3 billion yen.

As a result, consolidated net income attributable to owners of the Parent for the six months ended September 2014 rose 33.2 billion yen, or 15%, to 255.1 billion yen.

Review of Operating Segments

1) Global Environmental & Infrastructure Business Group

The Global Environmental & Infrastructure Business Group conducts infrastructure projects, related trading operations and other activities in power generation, water, transportation and other infrastructure fields that serve as a foundation for industry.

The segment recorded consolidated net income of 11.1 billion yen, an increase of 3.6 billion yen year over year.

The higher earnings mainly reflect increased earnings from undersea electricity transmission and the North American power generation business, despite the absence of gains accompanying the sale of part of a power generation business subsidiary recorded in the previous fiscal year.

2) Industrial Finance, Logistics & Development Group

The Industrial Finance, Logistics & Development Group is developing shosha-type industrial finance business. These businesses range from asset management, infrastructure investment, and buyout investment to leasing,

real estate development and logistics services.

The segment recorded consolidated net income of 27.3 billion yen, an increase of 14.5 billion yen year over year.

The higher earnings mainly reflected increased earnings in the fund investment business and the sale of real estate held for sale.

3) Energy Business Group

The Energy Business Group conducts a number of activities including oil and gas exploration, development and production (E&P) business; investment in natural gas liquefaction projects; trading of crude oil, petroleum products, carbon materials and products, LNG (Liquefied Natural Gas), and LPG (Liquefied Petroleum Gas); and planning and development of new energy business.

The segment recorded consolidated net income of 110.5 billion yen, an increase of 29.7 billion yen year over year.

This increase mainly reflected increased dividend income from resource-related investees.

4) Metals Group

The Metals Group trades, develops business and invests in a range of fields. These include steel products such as steel sheets and thick plates, steel raw materials such as coking coal and iron ore, and non-ferrous raw materials and products such as copper and aluminum.

The segment recorded consolidated net income of 12.1 billion yen, a 1.3 billion yen decrease year over year.

The decrease reflects mainly lower sales prices in the Australian coal

business.

5) Machinery Group

The Machinery Group handles sales, finance and logistics across many different sectors, in which it also invests. These fields include machine tools, agricultural machinery, construction machinery, mining machinery, elevating machinery, ships, aerospace-related equipment and motor vehicles.

The segment recorded consolidated net income of 44.3 billion yen, a decrease of 14.0 billion yen year over year.

This decrease mainly reflects lower sales in Asian automobile operations and the absence of a one-off gain associated with the valuation of assets recorded in the previous fiscal year.

6) Chemicals Group

The Chemicals Group trades chemical products in a broad range of fields, in which it also develops business and invests. These fields extend from basic materials such as ethylene, methanol, and salt produced from crude oil, natural gas, minerals, plants, marine resources and so forth, to midstream and downstream products such as plastics, electronic materials, food ingredients, fertilizer and fine chemicals.

The segment recorded consolidated net income of 14.3 billion yen, a decrease of 1.8 billion yen year over year.

Earnings decreased mainly due to lower earnings on transactions at a petrochemical business-related company.

7) Living Essentials Group

The Living Essentials Group provides products and services, develops businesses and invests in various fields closely linked with people's lives, including food products and food, textiles, essential supplies, healthcare, distribution and retail. These fields extend from the procurement of raw materials to the consumer market.

The segment recorded consolidated net income of 33.8 billion yen, an increase of 9.1 billion yen year over year.

Earnings increased mainly due to higher sales prices in the livestock business.

(2) Qualitative Information Concerning Consolidated Financial Position

Changes in Assets, Liabilities and Equity

Total assets at September 30, 2014 were 16,385.4 billion yen, an increase of 484.2 billion yen from March 31, 2014. Total assets increased mainly because of an increase in other investments due to rising stock prices, as well as new and additional investments in affiliates accounted for using the equity method, an increase in property and equipment due to the acquisition of new assets at a subsidiary, and an increase in cash and cash equivalents due to securing funds in advance for new investments.

Total liabilities were 10,605.1 billion yen, an increase of 243.3 billion yen. This mainly reflected an increased short-term debt reflecting the procurement of funds due to an increase in demand for funds such as working capital at subsidiaries, as well as an increase in liability derivatives in line with the yen's depreciation, and an increase in long-term debt due to the procurement of funds for making new and additional investments.

Interest-bearing liabilities (net), which are interest-bearing liabilities (gross) minus cash and cash equivalents and time deposits, increased 37.3 billion yen from March 31, 2014 to 4,638.3 billion yen. The net debt-to-equity ratio, which is net interest-bearing liabilities divided by equity attributable to owners of the Parent, was 0.9.

Equity attributable to owners of the Parent increased 222.1 billion yen to 5,289.8 billion yen. This increase was due mainly to an increase in retained earnings because of the consolidated net income, as well as an increase in other investments designated as FVTOCI under other components of equity reflecting an increase in mark-to-market gains on shares in line with rising stock prices, despite the payment of dividends at the Parent.

Cash Flows

Cash and cash equivalents at September 30, 2014 were 1,382.1 billion yen, an increase of 50.1 billion yen from March 31, 2014.

(Operating activities)

Net cash provided by operating activities was 300.6 billion yen, mainly due to cash flows from operating transactions and dividend income.

(Investing activities)

Net cash used in investing activities was 142.1 billion yen. Investing activities used net cash mainly due to capital expenditures in the Australian coal business and investments in energy resource businesses, despite cash provided by the sale of aircraft and the collection of loans receivable at subsidiaries.

As a result, free cash flow, the sum of operating and investing cash flows, was a positive 158.5 billion yen.

(Financing activities)

Net cash used in financing activities was 125.1 billion yen. Financing activities used net cash mainly due to the purchase of treasury stock and the payment of dividends at the Parent.

(3) Qualitative Information Concerning Consolidated Forecasts for the Year Ending March 2015

There has been no change to the consolidated earnings forecasts for the year ending March 2015 announced on May 8, 2014.

Note:

Earnings forecasts and other forward-looking statements in this release are based on data currently available to management and certain assumptions that management believes are reasonable. Therefore, they do not constitute a guarantee that they will be achieved. Actual results may differ materially from these statements for various reasons.

2. Summary Information (Notes)

(1) Significant Changes in Subsidiaries During the Six Months Ended September 2014 (Changes in Specified Subsidiaries Causing Changes in Scope of Consolidation)

From the six months ended September 2014, MCX GULF OF MEXICO, LLC is excluded from the scope of consolidation due to its extinguishment following the execution of an absorption-type merger in which MCX EXPLORATION (USA), LLC, a group company of Mitsubishi International Corporation (U.S.A.), was the surviving company and MCX GULF OF MEXICO, LLC was the extinguished company. Mitsubishi International Corporation (U.S.A.) is a U.S. subsidiary of Mitsubishi Corporation.

(2) Changes in Accounting Policies and Changes in Accounting Estimates

The important accounting policies applied to the condensed consolidated financial statements for the six months ended September 2014 are identical to the accounting policies applied to the consolidated financial statements for the previous fiscal year, except for the following:

New standards and interpretation guidelines applied

Standard and interpretation guideline	Outline
IFRIC 21 Levies	Accounting treatment of liabilities related to levies
IAS 36 Impairment of Assets (Amended)	Disclosure requirements for the recoverable amount of impaired assets

The adoption of the above standards and interpretation guidelines had no significant impact on the condensed consolidated financial statements for the six months ended September 2014.

*1. "Other" represents the corporate departments which primarily provide services and operational support to the Company and Affiliated companies.

This column also includes certain revenues and expenses from business activities related to financing and human resource services that are not allocated to reportable operating segments. Unallocated corporate assets categorized in "Other" consist primarily of cash, time deposits and securities for financial and investment activities.

*2. "Adjustments and Eliminations" include certain income and expense items that are not allocated to reportable operating segments and intersegment eliminations.

*3. The Company determines the infrastructure-related business of the "Global Environmental & Infrastructure Business Group" as an operating segment and is thus presented as the Global Environmental & Infrastructure Business. The environment-related business categorized in the "Other."

*4. Effective from April 1 and July 1, 2014 the part of environment-related business in the "Other" was transferred to the "Global Environment & Infrastructure Business." With this change, the consolidated financial position and the results of operations of related reportable operating segments for the three months ended March 31, 2014 have also been reclassified accordingly.

8. Notes concerning major changes in shareholders' equity

Mitsubishi Corporation

(Forward-Looking Statements)

- This release contains forward-looking statements about Mitsubishi Corporation's future plans, strategies, beliefs and performance that are not historical facts. Such statements are based on the company's assumptions and beliefs in light of competitive, financial and economic data currently available and are subject to a number of risks, uncertainties and assumptions that, without limitation, relate to world economic conditions, exchange rates and commodity prices.
- Accordingly, Mitsubishi Corporation wishes to caution readers that actual results may differ materially from those projected in this release and that Mitsubishi Corporation bears no responsibility for any negative impact caused by the use of this release.

(Notes Regarding this Presentation Material)

- Consolidated net income in this presentation shows the amount of net income attributable to owners of the Parent, excluding noncontrolling interests. Equity shows the amount of equity attributable to owners of the Parent, excluding noncontrolling interests.

Consolidated Operating Results for the Six Months Ended September 2014

	Six months ended September 2013	Six months ended September 2014	Increase or decrease	Forecasts for year ending March 2015 (as of May 8)	Achievement rate
Consolidated net income	221.9 billion yen	255.1 billion yen	+33.2 billion yen (+15%)	400.0 billion yen	64%
Dividend per share	30 yen	40 yen <small>(including 60th commemorative dividend of 10 yen)</small>	+10 yen	70 yen <small>(including 60th commemorative dividend of 10 yen)</small>	—

Consolidated Operating Results Highlights for the Six Months Ended September 2014

- ✓ Consolidated net income increased 33.2 billion yen year over year. The resource field saw increases in LNG and copper-related dividends. The non-resource field benefited from higher earnings in Industrial Finance, Logistics & Development and Living Essentials.
- ✓ The achievement rate against the full-year consolidated net income forecast was 64%. The consolidated net income forecast will be maintained at 400 billion yen as most resource-related dividends have already been recorded and commodity prices are sluggish.

Segment Net Income by Resource and Non-resource Field

[Resource]

Energy Business (37% increase year-over-year)

Increase in dividend income from resource-related business investees.

Metals—Resource (3% decrease year-over-year)

Lower sales prices in the Australian coal business.

[Non-resource]

Global Environmental & Infrastructure Business (48% increase year-over-year)

Increased earnings from the undersea electricity transmission and North American power generation businesses.

Industrial Finance, Logistics & Development (113% increase year-over-year)

Increased earnings in the fund investment business and the sale of real estate held for sale.

Machinery (24% decrease year-over-year)

Lower sales in Asian automobile operations and the absence of a one-off gain associated with the valuation of assets recorded in the previous period.

Chemicals (11% decrease year-over-year)

Lower earnings on transactions at a petrochemical business-related company.

Living Essentials (37% increase year-over-year)

Higher sales prices in the livestock business.

Metals—Non-resource (20% decrease year-over-year)

Decline in earnings on transactions in the steel products business.

*Earnings related to steel products operations in Metals are counted in Non-resource fields.

Cash Flows

Cash flows for the six months ended September 2014

○ Operating Cash Flows (269.3 billion yen)
Operating cash flows provided net cash mainly due to cash flows from operating transactions and dividend income.

○ Investing Cash Flows (-105.5 billion yen)
Investing activities used net cash mainly for investments in the Australian coal business and energy resource businesses, despite cash provided by the sale of aircrafts and the collection of loans receivable.

New Investments and Portfolio Reshaping

(Billion yen)		Year ended Mar. 2014	Year ending Mar. 2015			Main investment and divestment areas in the six months ended September 2014
		Cumulative total	June 2014	September 2014	Six months ended	
New investment	Resource	330.0	80.0	40.0	120.0	Australian coal business Shale gas and LNG businesses
	Non-resource	470.0	100.0	110.0	210.0	Fund and real estate investment Shipping business
	Total	800.0	180.0	150.0	330.0

	Depreciation	170.0	50.0	40.0	90.0	—
	Total	680.0	120.0	150.0	270.0	
Net investment		120.0	60.0	0	60.0	

* Profit and loss on sales is not included in the amount of "Asset sales."

Equity and Interest-Bearing Liabilities

■ Interest-bearing liabilities (net)
■ Total equity
● Debt-to-equity ratio (net)

【Main Reasons for Change in Equity】
 (+222.1 billion yen compared to March 31, 2014)

○ Net income	+255.1 billion yen
○ Other investments designated as FVTOCI	+72.7 billion yen
○ Exchange differences on translating foreign operations, etc.	+16.7 billion yen
○ Purchase and cancellation of treasury stock	-59.8 billion yen
○ Payment of dividends	-62.6 billion yen

(Reference) Market Conditions

[Foreign Exchange, Interest Rate and Commodity Prices Sensitivities]

	Six months ended Sept. 2014 (a)	Forecasts for year ending March 2015 (as of May 8) (b)	Increase or decrease (a)- (b)	Consolidated Net Income Sensitivities
Foreign Exchange (yen/US\$)	103.0	100	3.0	Depreciation (appreciation) of 1 yen per US\$1 has a 2.5 billion yen positive (negative) impact on a full-year basis.
Yen Interest (%) TIBOR	0.21	0.25	-0.04	The effect of rising interest rates is mostly offset by an increase in operating and investments profits. However, a rapid rise in interest rates can cause a temporary effect.
US\$ Interest (%) LIBOR	0.23	0.40	-0.17	
Crude Oil Prices (US\$/BBL) (Dubai)	103.8	100	3.8	A US\$1 rise (decline) per barrel increases (decreases) full-year earnings by 1.0 billion yen. Besides crude oil price fluctuations, other variables such as the different fiscal years of consolidated companies, the timing of the reflection of the crude oil price in sales prices, the dividend policy and sales volume affect crude oil-related earnings as well. Therefore, the impact on earnings cannot be determined by the crude oil price alone.
Copper (US\$/MT) [¢ /lb]	6,890 [313]	7,496 [340]	-606 [-27]	A US\$100 rise (decline) per MT increases (decreases) full-year earnings by 1.3 billion yen. Besides copper price fluctuations, other variables such as the grade of mined ore, the status of production operations, and reinvestment plans (capital expenditure) affect earnings from copper mines as well. Therefore, the impact on earnings cannot be determined by the copper price alone.
