Details of Each Proposal

Proposal No 1. To Approve the Proposed Appropriation of Surplus

The proposed appropriation of surplus for the fiscal year ended March 31, 2024 is as follows.

Under “Midterm Corporate Strategy 2024”, which covers the period from the fiscal year ended March 31, 2023, to the fiscal year ending March 31, 2025, MC has adopted a progressive dividend policy that aims to increase dividends in tandem with sustainable profit growth. In consideration of consolidated business results and other factors, the Board of Directors proposes the year-end dividend of ¥35 per common share.

The already paid interim dividend (¥105 per share) is equivalent to ¥35 per share after taking into account the effect of the 3-for-1 stock split of common shares effective January 1, 2024, resulting in an annual dividend of ¥70 per share. The annual dividend per share of ¥70 will be ¥210 per share when converted to the dividend per share prior to the stock split.

Proposal No 2. To Partially Amend the Articles of Incorporation

1. Reasons for the amendments

(i) Changes resulting from a transition to a Company with an Audit & Supervisory Committee, etc.

In order to enhance the function of corporate governance, further strengthen the Company's ability to respond to accelerating changes in the current external environment, and thereby increasing corporate value, MC proposes to transition from a Company with an Audit & Supervisory Board to a Company with an Audit & Supervisory Committee (please refer to pages 20 to 22 for details on the outline, background and purpose of the transition). Accordingly, MC proposes the following amendments to its Articles of Incorporation.

- a. To transition to a Company with an Audit & Supervisory Committee, MC will newly establish provisions regarding the Audit & Supervisory Committee, as well as Directors who are Audit & Supervisory Committee Members, and delete the provisions regarding the Audit & Supervisory Board and Audit & Supervisory Board Members, etc. In addition, to facilitate flexible decision-making and business execution, MC will newly establish Article 24, which pertains to the delegation of authority to Directors, and make amendments to other provisions as necessary.
- b. As part of the transition to a Company with an Audit & Supervisory Committee, MC will newly establish Article 17 to set the maximum number of Directors in order to make MC's Board of Directors an appropriate size from the perspective of ensuring the effectiveness.
- c. In order to more flexibly conduct the return of profits to shareholders, MC will newly establish Article 31, which enables decisions to be made by resolution of the Board of Directors on dividends based on surplus and acquisition of treasury shares, etc., and delete the provisions of Articles 7 and 34 of the current Articles of Incorporation regarding acquisition of treasury shares and decisions on interim dividends, as they partially overlap with the new provision of Article 31. Even after the amendment to the Articles of Incorporation becomes effective, MC may continue to determine dividends based on surplus, etc. by a resolution of the general meeting of shareholders.

(ii) Amending the Objectives of the Company

To prepare for further diversification of our business and expansion into new fields in the future amid increasing uncertainty in the business environment surrounding MC, MC will restructure the Objectives of the Company as stipulated in Article 2 of the current Articles of Incorporation to align the reorganization conducted on April 1, 2024, in addition to changing the number of sections, etc. accordingly.

(iii) Other general amendments

The number of articles will be revised in accordance with the establishment of new articles and deletion of existing articles. Necessary changes will also be made, such as the establishment of new section numbers.

2. Amendment details

The details of the amendments to the Articles of Incorporation are as shown below (indicated in the underlined sections). The amendments to the Articles of Incorporation in this Proposal shall take effect at the conclusion of this Ordinary General Meeting of Shareholders.

Basic Policy of and Evolution of Corporate Governance of MC

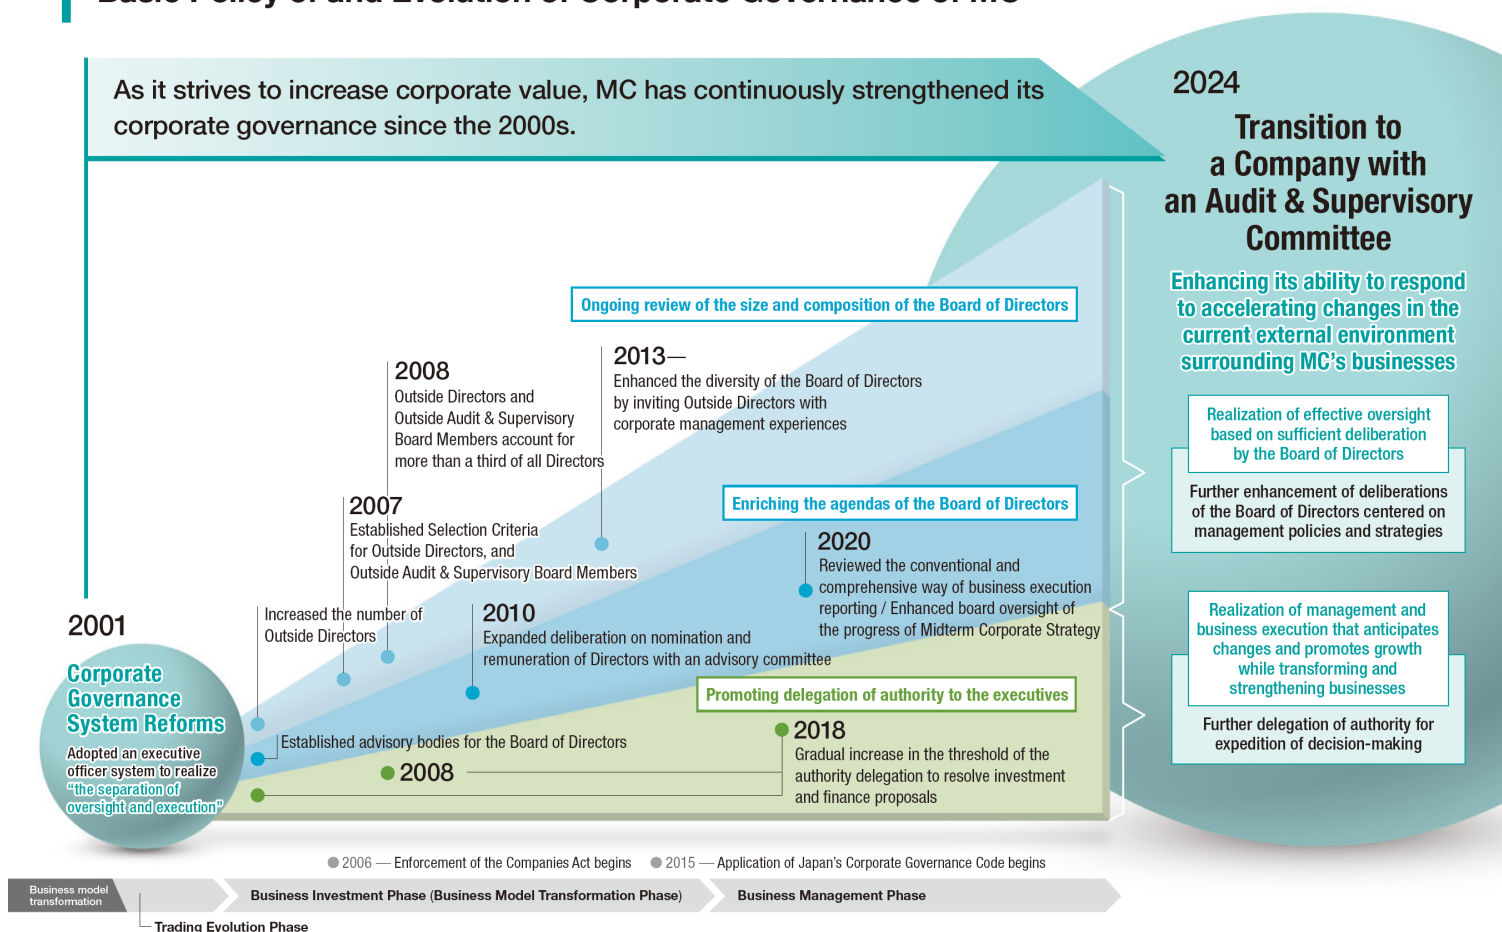

With the Three Corporate Principles for a corporate philosophy, MC strives to continuously increase corporate value through corporate activities rooted in the principles of fairness and integrity. MC believes that by helping to enrich society, both materially and spiritually, it will also meet the expectations of all its stakeholders. In order to achieve these goals, MC recognizes strengthening corporate governance on an ongoing basis as a fundamental management policy since it is the foundation for ensuring sound, transparent, and efficient management.

Since the 2000's, MC has been promoting corporate governance reforms under this basic policy. To realize management and business execution that promotes growth while anticipating changes and transforming and strengthening businesses, MC continuously strives to increase corporate value while ensuring sufficient deliberation and effective oversight by the Board of Directors.

While MC continues to enhance the function of corporate governance under its current corporate governance system, we have decided to transition to a Company with an Audit & Supervisory Committee in order to further enhance our ability to respond to accelerating changes in the current external environment surrounding MC's businesses. In addition to expediting decision-making through the delegation of authority, this transition will also enhance and improve the monitoring function of the Board of Directors by enhancing deliberations centered on management policies and strategies at the Board of Directors meetings, thereby increasing corporate value.

Basic Policy of and Evolution of Corporate Governance of MC

As it strives to increase corporate value, MC has continuously strengthened its corporate governance since the 2000s.

The key points of MC's Corporate Governance system following the transition to a Company with an Audit and Supervisory Committee

MC continuously strives for the realization of “effective oversight based on sufficient deliberation by the Board of Directors” and “management and business execution that anticipates changes and promotes growth while transforming and strengthening businesses.” For the purpose of further pursuing these goals, MC will strengthen its entire corporate governance system as follows, through its transition to a Company with an Audit and Supervisory Committee.

- 1 Strengthen MC's ability to respond to changes of current external environment surrounding MC's businesses by **delegating partial decision-making authority for the execution of important operations to the executives**, ensuring timely decision-making and flexibility of deliberation at the Board of Directors
- 2 Enhance the deliberation by splitting the Governance, Nomination and Compensation Committee into two committees, comprised of the “**Corporate Governance and Nomination Committee**” and the “**Compensation Committee**”
- 3 Improve audit functions through **deepening cooperation between the Audit and Supervisory Committee and the Internal Audit Department**

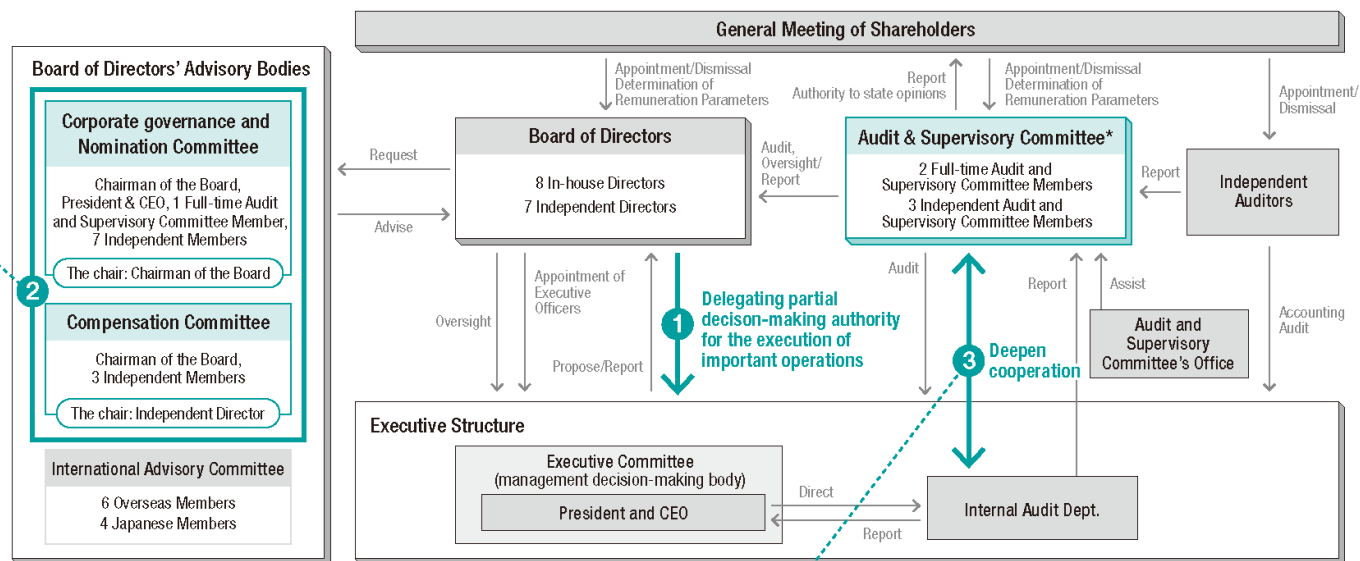

Changes to the Advisory Committees' system

Corporate Governance and Nomination Committee

This committee deliberates the basic policy of corporate governance serving as the foundation of management, and nomination serving as the source of all value creation for MC.

Compensation Committee

This committee will further enhance deliberations on policy for setting Directors' and Senior Vice Presidents' remuneration following its split from the Governance, Nomination and Compensation Committee.

Improvement of audit functions

As MC's management and business execution covers diverse businesses, the Audit and Supervisory Committee will continuously improve the effectiveness of the audit function by deepening its cooperation with the Internal Audit Department, which conducts the internal audit function of MC's businesses on a consolidated basis.

Approaches to Corporate Governance

Initiatives to Enhance the Effectiveness of the Board of Directors

As Chairman of the Board and a bridge between Independent Directors and the executives, I will continue to strive to maintain and develop corporate governance which is the foundation of management, and to ensure MC's sound and sustainable growth and continuous increase of corporate value, by enhancing deliberations and ensuring that the Board of Directors fulfills its roles and responsibilities.

Takehiko Kakiuchi
Chairman of the Board

The Board of Directors

The Board of Directors

The Board of Directors shall fulfill the roles and responsibilities listed below to realize transparent, fair, timely, and decisive decision-making and highly effective oversight of management.

- To provide a broad management direction in line with MC's business reality, taking into consideration the external environment surrounding MC's businesses, trends, and global perspectives, etc.
- To oversee the development and operation of the business management and risk management systems the executives have established to support appropriate risk-taking.
- To provide highly effective oversight of the executives by evaluating them from an independent and objective standpoint in light of the basic management policies formulated by the executives and approved by the Board of Directors, and by encouraging them to take necessary corrective actions.

Transition to a Company with an Audit and Supervisory Committee

FY2023 Evaluation Approach

Since the fiscal year ended March 31, 2016, MC has evaluated the effectiveness of the Board of Directors every year. Since the fiscal year ended March 31, 2019, this has been carried out through a self-evaluation process led by Independent Directors and Independent Audit & Supervisory Board Members.

In the fiscal year ended March 31, 2024, an independent third-party expert, Board Advisors Japan, Inc., conducted an evaluation with the aim of further enhancing the effectiveness of the Board of Directors, in anticipation of the transition into a Company with an Audit & Supervisory Committee. From a neutral perspective of the third-party, the effectiveness of MC's Board of Directors was confirmed and MC also received recommendations for the future operations, leading MC to consider how the Board of Directors should develop the deliberation in the fiscal year ending March 31, 2025 and the process for formulating the next Midterm Corporate Strategy.

FY2023 Third-Party Evaluation Process

- STEP 1** The Governance, Nomination, and Compensation Committee discussed the evaluation's implementation methods and process, then confirmed to conduct Third-Party Evaluation.
- STEP 2** A third-party expert formulated survey and interview items based on the operation and deliberation status of the Company's Board of Directors and past evaluations. The third-party expert conducted surveys (multiple-choice and written) for Directors and Audit & Supervisory Board Members, interviewed them using the survey results as a basis, and analyzed and evaluated the results.
- STEP 3** The third-party expert reported the results of the evaluation to the Governance, Nomination and Compensation Committee. Using the evaluation results as a basis, the Board of Directors then deliberated.

Audit & Supervisory Board

The Audit & Supervisory Board comprises all of the Audit & Supervisory Board Members responsible for auditing the decision-making processes and the status of management execution of Directors in compliance with the Companies Act and other laws/regulations as well as MC's Articles of Incorporation and internal rules/regulations. Full-time Audit & Supervisory Board Members and Independent Audit & Supervisory Board Members ensure the soundness of management by executing audits informed by abundant management experience within MC and by experience in the field of their own expertise as well as a neutral and objective perspective, respectively. In addition to making resolutions on matters required by law and other important issues, the Audit & Supervisory Board strives to enhance information-sharing among the Members through briefings on key matters and reporting on the status of the auditing activities of each of the Members.

Main Activities of Audit & Supervisory Board Members (Audit & Supervisory Board) in FY2023

1. Dialogue with Executive Officers

Opportunities are created for all Audit & Supervisory Board Members, including the Independent Audit & Supervisory Board Members, to engage in dialogues with Chairman of the Board, President and CEO, Senior Executive Vice President, Corporate Functional Officers, Business Group Heads/CEOs, Business Division COOs, General Managers of Administrative Departments, General Manager of Auditing Department, General Manager of the Corporate Strategy & Planning Department and General Managers of the Corporate Staff Section.

2. Attendance at Important Meetings

MC also provides assistance in training for those who will be assigned to the MC Group companies as full-time Audit & Supervisory Board Members. We will continue working to strengthen the corporate governance of MC Group through regular monitoring.

5. Enhancing the Effectiveness of the Audit & Supervisory Board and Its Members

To increase the effectiveness of the audits performed by the Audit & Supervisory Board Members, in the year ended March 31, 2024, continuing initiatives implemented in the previous fiscal year, we further enhanced the reviews of the activities of the Audit & Supervisory Board. Specifically, as in previous years, the Audit & Supervisory Board held mid-year and year-end reviews of audit status, focusing mainly on key audit areas. In addition, the Audit & Supervisory Board carried out an evaluation of its effectiveness based on a survey of its members and hearings about the survey results. The Audit & Supervisory Board reviewed its auditing methods and deliberated matters to be followed up in the audit activities for the coming fiscal year. The results of the evaluation confirmed that the audits performed by the Audit & Supervisory Board functioned adequately, that its effectiveness is appropriately ensured, and that the Audit & Supervisory Board will continue to consider methods to further enhance its effectiveness (e.g. sharing the Audit & Supervisory Board's opinions with the Board of Directors, or exchanging opinions with Independent Directors).

Stance on Acquisition, Holding and Reduction in Listed Stocks / Reduction in Holdings of Listed Stocks

[Stance on acquisition, holding and reduction in listed stocks]

MC may acquire and hold shares acquired for other than pure investment as a means of creating business opportunities and building, maintaining and strengthening business and partner relationships. When acquiring these shares, MC confirms the necessity of its acquisition based on the significance and economic rationale of the purchase in accordance with internal company rules. Also, MC periodically reviews the rationality of continuing to hold the shares and promotes reducing holdings of stocks with decreased significance.

[Verification policy for holding individual shares]

The Board of Directors verifies all of the listed shares (excluding pure investment) held by MC from the perspectives of both economic rationale and qualitative significance of holding them every year.

The economic rationale is confirmed based on whether or not the related earnings from each stock, such as dividends and related business profits on transactions, exceed MC's target capital cost (weighted average cost of capital) for the market price of each individual share.

The qualitative significance is confirmed based on the achievement or status of progress of the expected purpose for holding the stock, etc.

[Reduction in holdings of listed stocks]

Based on the results of the verification process described above, in the fiscal year ended March 2024, shareholdings were reduced by approximately 10% compared to the previous fiscal year-end, as a result of selling shares of approximately ¥50 billion (with a market value at the end of March 2023, including deemed shareholdings)(*).

(*) The total market value of the shares sold will be disclosed in the Annual Securities Report scheduled to be published on June 21, 2024.

Message from the candidate for appointment as Outside Director

Major changes in international politics are also transforming global economic structures. Given this, global companies such as ours are required to make strategic investments in digitalization and AI, and to adjust and adapt quickly, while also diversifying paths to cope with climate change (energy conversion) and responding to competition to secure important mineral resources. In this regard, I would like to leverage my management experience in manufacturing conglomerates with a wide range of technological fields and the knowledge I have gained through interacting with managers from various countries to contribute toward growth strategy establishment, advise on international human resource development, and offer management supervision.

An upper limit is also placed on the total amount to be paid.)
3. The annual amount for performance-linked bonuses (medium to long term) that reflects the profit over the longer term shall be up to 0.06% of average profit for the year (attributable to owners of Parent) over the subsequent three fiscal years starting from the relevant fiscal year (The amount paid is adjusted in line with average profit for the year (attributable to owners of Parent) over the subsequent three fiscal years starting from the relevant fiscal year as well as the results of evaluations of initiatives related to sustainability factors and calculated according to the formula resolved by the Board of Directors. Furthermore, no bonuses shall be paid if average profit for the year (attributable to owners of Parent) is below the average profit threshold resolved ahead of time by the Board of Directors based on the consolidated capital cost. Proposal No.8: To Determine the Amount of Stock-based Remuneration Linked to Medium- to Long-term Share Performances for Eligible Directors (excluding Directors who are Audit & Supervisory Committee Members)

MC remunerates its Executive Directors with stock-based remuneration linked to medium- to long-term share performances (stock-linked compensation plan with market conditions) of up to 600 million yen per year with an exercise price of 1 yen, based on the approval at the 2019 Ordinary General Meeting of Shareholders (held on June 21, 2019).

Upon approval of Proposal No.2 as originally proposed, MC will transition to a Company with an Audit & Supervisory Committee. Therefore, while the current stock-based remuneration linked to medium- to long-term share performances will be abolished and, by taking into consideration various factors including economic conditions, MC hereby proposes the following resolution to continue providing Executive Directors (excluding Directors who are Audit & Supervisory Committee Members) (hereinafter referred to as “Eligible Directors” in this Proposal) with stock-based remuneration linked to medium- to long-term share performances in the form of stock acquisition rights for the purpose of aligning Eligible Directors’ interests with those of shareholders and increasing awareness for enhancing corporate value over the medium- to long-term. It will be equivalent to the current stock-based remuneration linked to medium- to long-term share performances, except that the number of shares will be adjusted in accordance with the stock split conducted on January 1, 2024.

As stock-based remuneration linked to medium- to long-term share performances, MC issue stock acquisition rights in a total amount of no more than 600 million yen per year.

The stock-based remuneration shall have a variable number of exercisable stock acquisition rights that depends on the growth rate in the MC’s shares during the performance evaluation period (hereinafter the “Evaluation Period”), which is defined as a three-year performance period after the stock acquisition rights are allocated. The growth rate in MC’s shares shall be calculated as the Total Shareholder Return (TSR) during the Performance Period divided by the growth rate for the Tokyo Stock Price Index (TOPIX) will be calculated by dividing the Total Shareholder Return (TSR) recorded during the Performance Period over the same period. The stock acquisition rights will not be subject to allotment for Chairman of the Board who do not serve as an Executive Officer and Outside Directors in consideration of their roles.

Below is an explanation of the stock acquisition rights with the aim of stock-based remuneration to be issued within the aforementioned remuneration amount.

If it is appropriate to adjust the number of shares of common stock due to the Company’s conducting a stock split (including a free distribution of the Company’s common stock) or consolidation of its common stock, the Company will carry out an adjustment, as deemed necessary, of the annual upper limit of shares available for stock acquisition rights and the Number of Shares Granted.
2. Total number of units of stock acquisition rights
The annual maximum shall be 4,000 stock acquisition rights in each fiscal year.
3. Amount paid for stock acquisition rights

5. Exercisable period of the stock acquisition rights
The exercisable period of the stock acquisition rights shall be 27 years from the day following the three-year after the allocation of stock acquisition rights.

***Market conditions**

(1) Number of exercisable stock acquisition rights

The number of exercisable stock acquisition rights is determined using the formula below. Numbers less than one stock acquisition right are rounded.

- (Initial number of allocated stock acquisition rights) x (vesting ratio)

(2) Vesting ratio

The vesting ratio for stock acquisition rights varies, as shown below, depending on the growth rate in the Company's shares (see (3) below) over the three-year period from the allocation date. Amounts less than 1% are rounded to the nearest whole number.

- Growth rate of at least 125% in the Company's shares: 100%
- Growth rate between 75% and 125% in the Company's shares:
 $40\% + \{\text{the Company's share growth rate (\%)} - 75 (\%)\} \times 1.2$
(amounts less than 1% rounded to the nearest whole number)
- Growth rate less than 75% in the Company's shares: 40%

(3) Growth rate in shares

Growth rate in the Company's shares = the Company's TSR (three years) / TOPIX growth rate (three years)

- The Company's TSR = (A + B)/C

A: Average closing price for shares of the Company's common stock on the Tokyo Stock Exchange on each trading day during the three months preceding the month when the exercise period began (excluding days on which no transactions were made)

B: Total amount of dividends per share of the Company's common stock from the date of allocation of stock acquisition rights to the date when the exercise period began

C: Average closing price for shares of the Company's common stock on the Tokyo Stock Exchange on each trading day during the three months preceding the month when stock acquisition rights are allocated
(excluding days on which no transactions were made)

- TOPIX growth rate = D/E

D: Average closing price for TOPIX on the Tokyo Stock Exchange on each trading day during the three months preceding the month when the exercise period began
(excluding days on which no transactions were made)

E: Average closing price for TOPIX on the Tokyo Stock Exchange on each trading day during the three months preceding the month when stock acquisition rights are allocated
(excluding days on which no transactions were made)

Remuneration Package for Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members

The basic approach to the remuneration, the composition of remuneration package (limits on remuneration and sustainability factor evaluations/process flow) as well as remuneration payment mix (conceptual image) upon the approval of Proposal No.2, and No.6 to No. 8 is detailed below.

• **Basic Approach**

Remuneration levels	<ul style="list-style-type: none">• Remuneration levels are set based on the functions and roles of Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members and the Company's level of performance and others.• Remuneration levels are globally competitive and based on performance targets to motivate career growth in human resources who will be responsible for the next generation of management and to further raise organizational vitality.
Remuneration composition	<ul style="list-style-type: none">• Remuneration for Executive Directors (excluding Directors who are Audit & Supervisory Committee Members) is designed for greater focus on increasing medium- and long-term corporate value by more closely linking remuneration to medium- to long-term corporate value and fiscal year profit as well as the creation of stock remuneration with stronger ties to shareholder value, in addition to cash compensation. From this perspective, profit (single year and medium to long term), sustainability factors (medium to long term), the share price and share growth rates (medium to long term) are adopted as key performance indicators.• To ensure the independence of Chairman of the Board, Independent Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members, who undertake functions of management oversight, the Company only pays them fixed monthly remuneration.

Conserving and Effectively Utilizing Natural Capital—Biodiversity Initiatives

MC recognizes the critical importance of natural capital, including biodiversity, and committed to maintaining, protecting, and restoring it. MC has set “Conserving and Effectively Utilizing Natural Capital” as one of our Materiality. Since FY2022, based on these principles and materiality analysis, MC analyzes its nature-related dependencies and impacts using the TNFD* framework. Natural capital issues are also taken into account when reviewing investment and loan proposals. MC strives to minimize negative impacts on natural capital from its business activities.

(*) Taskforce on Nature-related Financial Disclosures (TNFD) set up by the United Nations Development Programme (UNDP) and other organizations. The TNFD takes a lead in formulation of frameworks for companies’ disclosure to investors and markets about nature-related risks and opportunities.

Respecting Human Rights in Our Business Operations / Promoting Stable, Sustainable Societies and Lifestyles—Human Rights and Supply Chain Management

MC has set “Promoting Stable, Sustainable Societies and Lifestyles” and “Respecting Human Rights in Our Business Operations” as Materiality. In the fiscal year ended March 31, 2024, we established a Human Rights Policy to reorganize and clarify our approach to respecting human rights and promoting our efforts in this regard.

Under our Human Rights Policy, we conduct human rights due diligence within our supply chain and in our business activities. In our supply chain, we have established the MC Policy for Sustainable Supply Chain Management and annually conduct our Sustainable Supply Chain Survey. In our business activities, to carry out appropriate screening based on the risk and nature of our investment projects, we established guidelines for environmental and social due diligence when screening loan and investment projects. We also conducted audits incorporating ESG themes of our Group companies in the fiscal year ended March 31, 2024. In addition, MC Group has established and manages a consultation desk, which serves as a point of contact for external stakeholders to consult on cases where the MC Group’s business activities are causing, or could potentially cause, a negative impact on human rights and/or the environment.

Contributing to Decarbonized Societies—Responding to Climate Change

MC believes that while climate change poses significant business risks, it also presents the Company with new business opportunities for innovation and the realization of new businesses. Accordingly, MC has set “Contributing to Decarbonized Societies” as one of our Materiality as well as one of the key management issues to be addressed and challenged in our pursuit of sustainable growth. While fulfilling its mandate to meet the demand for energy, MC will seek to achieve carbon neutrality by contributing to decarbonized societies in collaboration with MC Group companies and in partnership with a broad range of stakeholders, including governments, companies, and industry associations.

In MC’s “Roadmap to a Carbon Neutral Society”, the goal of halving greenhouse gas (GHG) emissions by FY2030 was established, and the actual results for FY2022 are shown below. As laid out in its Midterm Corporate Strategy 2024, to achieve this goal, MC will continue to confirm our short- and medium-term GHG reduction plans when establishing investment plans each fiscal year.

■ Basic Approach to Directors' and Audit & Supervisory Board Members' Remuneration

The basic approach to the remuneration of Directors and Audit & Supervisory Board Members is detailed below.

Remuneration levels	<ul style="list-style-type: none"> • Remuneration levels are set based on the functions and roles of Directors and Audit & Supervisory Board Members and the Company's level of performance and others. • Remuneration levels are globally competitive and based on performance targets to motivate career growth in human resources who will be responsible for the next generation of management and to further raise organizational vitality.
Remuneration composition	<ul style="list-style-type: none"> • Remuneration for Executive Directors is designed for greater focus on increasing medium- and long-term corporate value by more closely linking remuneration to medium- to long-term corporate value and fiscal year earnings, as well as the creation of stock remuneration with stronger ties to shareholder value, in addition to cash compensation. From this perspective, profit (single year and medium to long term), sustainability factors (medium to long term), the share price and share growth rates (medium to long term) are adopted as key performance indicators. • To ensure the independence of Chairman of the Board and Independent Directors, who undertake functions of management oversight, and Audit & Supervisory Board Members, who undertake audits, the Company only pays them fixed monthly remuneration.
Governance of remuneration	<ul style="list-style-type: none"> • The Governance, Nomination and Compensation Committee, where a majority of the members are Independent Directors and Independent Audit & Supervisory Board Members, continuously deliberates and monitors methods for deciding remuneration packages, the fairness of remuneration levels and compositions (including components of remuneration subject to clawback policy), and the status of implementation.

■ Governance of Remuneration (Fiscal Year Ended March 2024)

The Governance, Nomination and Compensation Committee deliberates and the Board of Directors decides the policy for setting Directors' and Executive Officers' remuneration and the remuneration amount (actual payment amount).

The total remuneration amount (actual payment amount) and individual payment amounts for Directors, excluding individual performance-linked remuneration, are determined by a resolution of the Board of Directors within the upper limits for each type of remuneration decided by resolution of the Ordinary General Meeting of Shareholders held on June 21, 2019. Base salary and annual deferral for retirement remuneration, forms of fixed remuneration, are paid in amounts determined by the Board of Directors. As for variable remuneration, payments of performance-linked bonuses (short term), performance-linked bonuses (medium to long term) and stock-based remuneration linked to medium- to long-term share performance are determined, while reflecting key performance indicators, based on a formula set by the Board of Directors following deliberation by the Governance, Nomination and Compensation Committee. Based on the approval obtained at the 2023 Ordinary General Meeting of Shareholders (held on June 23, 2023), MC has added sustainability factors as new key performance indicators, which have been applied from performance-linked bonuses (medium to long term) from the fiscal year ended March 2024. MC has adopted a clawback policy,* applicable to the individual performance-linked remuneration, performance-linked bonuses (short term) and performance-linked bonuses (medium to long term) of Executive Directors, revising the regulations for executive officers by resolution at the Board of Directors' Meeting held on February 18, 2022.

The payment amounts of individual performance-linked remuneration paid to Directors based on their individual performance assessment, including qualitative assessment, are determined and paid on an individual basis, reflecting the President's yearly assessment of performance in both financial and non-financial terms of each Director for the relevant fiscal year (it is appropriate that yearly assessment is conducted by the President who is the Chief Executive Officer of the Company and therefore the Board of Directors delegates authority to the President for deciding the individual payment amounts). Performance evaluations of Executive Directors comprehensively take into account their contributions to the organizations and businesses they oversee; their contributions to management of the entire Company, Corporate Staff Section, Business Groups and offices; and the initiatives related to value creation that leads to sustainability.

The annual assessment on the President's performance is decided by the President's Performance Evaluation Committee, which is delegated this authority by the Board of Directors (and is a subcommittee of the Governance, Nomination and Compensation Committee). The subcommittee is comprised of Chairman of the Board, who also serves as the chair of the Governance, Nomination and Compensation Committee, and Independent Directors sitting on the committee (see page 23). Results of the performance assessment are reported to the Board of Directors and the Governance, Nomination and Compensation Committee to ensure objectivity, fairness and transparency.

Based on the policy for determining remuneration packages (including methods for calculating performance-linked bonuses) that was approved at the ordinary meeting of the Board of Directors held on May 17, 2019, and the extraordinary meeting of the Board of Directors held on June 21, 2019, each year, the Governance, Nomination and Compensation Committee deliberates and the Board of Directors makes a resolution determining that the total amount of director remuneration packages and methods for deciding payments to individual directors are consistent with said policy for determining remuneration packages.

Each year, the Governance, Nomination and Compensation Committee deliberates and monitors the appropriateness of remuneration levels and composition (including components of remuneration subject to clawback policy) as well as the operational status of remuneration systems. This is done with reference to data on remuneration levels and composition ratios provided by an external consulting firm (Willis Towers Watson).

Total and individual amounts of remuneration paid to Audit & Supervisory Board Members are determined following deliberations by the Audit & Supervisory Board within the scope of remuneration for Audit & Supervisory Board Members approved at the Ordinary General Meeting of Shareholders held on June 21, 2019.

* In the event that an executive officer causes any loss or damage to the company from willful misconduct or negligence, a serious violation of a delegation agreement, or a serious accounting error/ex-post revision of a financial report due to misconduct resolved by the Board of Directors, non-payment or reduction of the amount/reclaiming of the paid amount is possible by resolution of the Board of Directors.
