The Consumer Industry Group continues to address major challenges faced by consumers in the retail, apparel, SPA (specialty store retailer of private label apparel), healthcare, food distribution and logistics, tire industries, consumer marketing, and paper and packaging. Furthermore, by integrating real and digital business models, we are aiming to build retail and distribution platforms that offer the utmost value to consumers.

Due in part to the widespread use of smartphones and technological innovations (AI, IoT, blockchains, etc.), consumer needs are becoming increasingly diverse and fragmented. Our challenge is to accurately meet those needs and generate value by using MC’s broad consumer connections.
