Mitsubishi Corporation (MC) is a global integrated business enterprise that develops and operates businesses together with its offices and subsidiaries in approximately 90 countries and regions worldwide, as well as a global network of around 1,400 group companies.

MC has 10 Business Groups that operate across virtually every industry: Natural Gas, Industrial Materials, Petroleum & Chemicals, Mineral Resources, Industrial Infrastructure, Automotive & Mobility, Food Industry, Consumer Industry, Power Solution and Urban Development. Through these 10 Business Groups, MC’s current activities have expanded far beyond its traditional trading operations to include project development, production and manufacturing operations, working in collaboration with our trusted partners around the globe.

With an unwavering commitment to conducting business with integrity and fairness, MC remains fully dedicated to growing its businesses while contributing to a prosperous society.
The Three Corporate Principles were formulated in 1934, as the action guidelines of Mitsubishi Trading Company (Mitsubishi Shoji Kaisha), based on the teachings of Koyata Iwasaki, the fourth president of Mitsubishi. Although Mitsubishi Trading Company ceased to exist as of 1947, the principles were adopted as MC’s corporate philosophy, and this spirit lives on in the actions of today’s management and employees. The Three Corporate Principles also serve as the cornerstone of the management ethos of the so-called Mitsubishi group of companies. Active in many business fields and united by a common history and philosophy, the Mitsubishi companies continue to grow through a strong spirit of friendly competition with one another.

Corporate Philosophy – Three Corporate Principles

The 1980s to 1990s

2001 Introduced an aggressive new blueprint for growth titled “MC2003” which involved expanding the company’s value chains, strengthening its profitability, and focusing strategies to create new businesses.

2004 Unveiled “INNOVATION 2007” which sought to establish MC as a “New Industry Innovator” by accelerating the company’s research and development activities to respond to future strategic fields.

2010 Announced “Midterm Corporate Strategy 2012” which sought to strengthen the company’s management platform based on the diversification of business models.

2016 Released “Midterm Corporate Strategy 2018” with a corporate vision to leverage MC’s ingenuity to create new business models and generate value for societies, thereby developing the highest level of management expertise.

2018 Announced “Midterm Corporate Strategy 2021.”

Corporate Responsibility to Society

“Shoki Hoko” Strive to enrich society, both materially and spiritually, while contributing towards the preservation of the global environment.

Integrity and Fairness

“Shoji Komei” Maintain principles of transparency and openness, conducting business with integrity and fairness.

Global Understanding Through Business

“Ritsugyo Boeki” Expand business, based on an all-encompassing global perspective.

(The modern day interpretation of the Three Corporate Principles, as agreed on at the Mitsubishi Kinyokai meeting of the companies that constitute the so-called Mitsubishi group in January 2001.)
MC has built a network to drive its next phase of major growth by constantly enhancing its ability to respond to change in tandem with fostering collaboration through the efficient and effective roles among MC offices and subsidiaries, group companies and the head office.

In response to these complex and rapid changes, and in order to accelerate the implementation of MC’s business management model, the Regional CEO operating structure across seven key overseas regions was abolished starting this fiscal year. The new structure is designed to promote regional strategies that optimize direct collaboration throughout our global network including approximately 1,400 group companies in 90 countries and regions around the world. MC will leverage its global network under this reorganized structure to gather and communicate relevant, real-time business intelligence.

This enhanced global network will be used to identify potential growth sources and new business opportunities, as well as to bolster risk management and ultimately support the expansion of the MC Group. Corporate Management Support Offices have also been newly established in New York, London, and Singapore to shore up the growth and independence of MC’s operating companies.

In this manner, the MC Group aims to maximize its business value by enhancing its global network and taking full advantage of the MC Group’s collective global abilities, including its good relationships with customers and partners around the world.

Global Network  (Countries and Regions)  (As of April 1, 2019)

The MC Group operates in a rapidly changing business environment, both at home and overseas. Recent developments have dramatically changed the playing field, and we must now take stock of factors such as heightened geopolitical risk and an increasingly borderless global society and market.

Head Office: Tokyo

Number of MC offices and subsidiaries in Japan: 9
Number of MC offices and subsidiaries overseas: 118

* Locations of MC offices and subsidiaries are marked.
* MC offices, subsidiaries, and annex offices (4 in Japan, 15 overseas), as well as project offices (39 overseas) are collectively referred to as “offices and subsidiaries”

**Number of group companies: 1,425**
(1,022 consolidated subsidiaries and 403 equity-method affiliates)

*As of March 31, 2019. Including affiliates for which subsidiaries implement consolidated accounting procedures (including MC’s 42 regional and other subsidiaries which implement consolidated accounting procedures)
*MC’s 42 regional and other subsidiaries are excluded from the number of group companies listed by region on the map.

- **Europe**: 23 MC Offices and Subsidiaries, 218 Group Companies
- **Middle East**: 14 MC Offices and Subsidiaries, 1 Group Company
- **East Asia**: 16 MC Offices and Subsidiaries, 76 Group Companies
- **Africa**: 11 MC Offices and Subsidiaries, 4 Group Companies
- **Asia**: 25 MC Offices and Subsidiaries, 155 Group Companies
- **Oceania**: 4 MC Offices and Subsidiaries, 36 Group Companies
- **Japan**: 9 MC Offices and Subsidiaries, 328 Group Companies
The MC Group Will Deliver Sustainable Growth by Fulfiling Societal Needs

The MC Group aims to deliver sustainable growth by adapting to changes in the business environment and fulfilling societal needs in due consideration of the United Nations’ Sustainable Development Goals (SDGs). To achieve this aim, the MC Group shall rely on three core strengths, namely its collective capabilities to adopt a holistic view of industry, its foresight to identify new seeds of growth, and its execution skills to germinate them.

Simultaneously generating economic value, environmental value and societal value through our businesses

Mission & Corporate Philosophy

- The ‘Three Corporate Principles’ serve as the MC Group’s core philosophy and underpin its commitment to fair, responsible, and global business practices.
- By pooling its collective capabilities, the MC Group strives to fulfill societal needs and meet stakeholder expectations by simultaneously generating economic, societal, and environmental value.

Adaptability

- The MC Group prides itself in adapting to our ever-evolving world, anticipating and responding to changes in geopolitical, economic and industrial landscapes, the last two of which are being increasingly driven by innovations in technology.

Consolidated Growth Strategy

- The MC Group includes approximately 1,400 enterprises, and as the MC Group works to raise their consolidated earnings, it remains equally committed to growing their individual corporate value, while simultaneously generating three values.
- By leveraging the diverse expertise found throughout its network of group companies and more than 130 Business Units, MC shall continue to innovate and inspire global industries.
- MC shall optimize its portfolio by dynamically allocating management resources based on its level of engagement in each business. Sizeable growth investments are companywide commitments to develop next-generation earnings drivers.
- The MC Group is dedicated to rearing the highest quality of management professionals, ethically grounded leaders with the foresight to identify new seeds of growth and the execution skills to germinate them.
- Regardless of how our world evolves, there will always be opportunities to deliver goods and services that meet societal needs and improve our quality of life. This recognition is the very foundation of MC’s consolidated growth strategy.
Outline of Midterm Corporate Strategy 2021

Our new Midterm Corporate Strategy aims to realize triple-value growth* through MC’s business-management model.

It will make MC more adaptable to changing geopolitical dynamics, the transition to a digital age and other rapid developments.

The strategy’s four sections are outlined on the right.

*Simultaneously generating economic value, societal value, and environmental value

Portfolio Strategies Aimed at Stimulating Further Growth

By strengthening our operations in the Services Sector and downstream businesses, we will endeavor to stimulate more growth in what is currently a very stable business portfolio.
Value - Added Cyclical Growth Model & Improved ROE

We will identify Potential Growth Sources and nurture them into Growth Drivers and Core Businesses by enhancing their value. In this new cyclical growth model, even Core Businesses will be replaced with new Growth Driver Candidates if MC can no longer add value to them. This will have the added benefit of improving MC’s ROE.

Financial Targets & Capital Policy

By continuously growing MC’s Business-Related Segments and making it more competitive in Market-Related Segments, we will aim for an even higher double-digit ROE. We will extend the current progressive dividend scheme, and aim to increase MC’s dividend payout ratio from 30% to 35% in the future.
# Introduction to Business Groups

## Natural Gas Group
- Natural Gas Div. (Asia Pacific)
- Natural Gas Div. (Americas, Europe and ME)

Basrah Gas Company
Iraq’s First Project for Effectively Utilizing Associated Gas
Basrah Gas Company refines and sells natural gas in Iraq. Three enterprises have invested in the company, namely MC, South Gas Company, and Shell. Since 2013, Basrah Gas Company has been collecting and refining associated gas, as well as selling gas for power generation, LPG, and condensates. Basrah Gas Company is providing the country with a stable supply of energy, helping the protection of the global environment by collecting associated gas, which was conventionally flared on-site, and shoring up the local economy and post-war reconstruction efforts by creating jobs.

Cameron LNG Project
U.S.-Based Natural Gas Liquefaction and Export
Cameron LNG is a project to liquefy and export natural gas produced in the U.S., where gas supply has grown as a result of shale gas production. The project, which has a capacity to commercially produce 12 million tons of LNG per year, a third of which will be handled by MC, has started commercial operations in August 2019. Supply from Cameron LNG will supplement LNG sources in the Middle East and Southeast Asia and contribute towards stable energy supplies.

MC, in partnership with Encana, is actively engaged in shale gas development, at a premier unconventional resource play in Montney, an area well recognized for its massive remaining resources and cost competitiveness. MC will export the gas produced at Montney to markets in East Asia including Japan, through the LNG Canada project which MC also participates in, in addition to marketing the gas locally in North America.

Refining & Sale of Natural Gas (Iraq)
Basrah Gas Company
Basrah Gas Company refines and sells natural gas in Iraq. Three enterprises have invested in the company, namely MC, South Gas Company, and Shell. Supply from Cameron LNG will supplement LNG sources in the Middle East and Southeast Asia and contribute towards stable energy supplies.
The Natural Gas Group engages in the business of liquefied natural gas (LNG), which demand is expected to grow due to various factors including the transition to low-carbon societies.

MC has been involved in the production, transport, trade, and import agent business of LNG since it took part in importing the first LNG cargo to Japan in 1969.

We value our relationship of trust with producing countries and our customers, and have extended our LNG value chain in areas such as Southeast Asia, Australia, and Russia. In recent years, we have further expanded our footprint by taking part in a shale gas development project in Canada, an LNG export project in the U.S., and various new challenges including LNG marketing activities through our subsidiary in Singapore.

Our goal is to achieve economical, societal, and environmental value through the stable supply of energy, which is essential for our everyday lives.
Mitsubishi Cement Corporation
- Cement Business (USA)
- MCC Development Corporation
- Ready-Mixed Concrete Business (USA)

MC Plastic Trading de Mexico
- Sales of Industrial Resins and PVCs (Mexico)

Color Mexicana S.A. de C.V.
- Manufacturing and Sales of Plastic Compounds & Coloring Agents (Mexico)

MC Plastic Trading de Mexico
- Sales of Industrial Resins and PVC (Mexico)
- DM ColorMexicana S.A. de C.V.
- Manufacturing and Sales of Plastic Compounds & Coloring Agents (Mexico)

Mitsubishi International Polymer Trade Corporation
- Sales of Specialty Chemicals, PVC, and Industrial Resins (USA)

Amitex Chemical Corporation
- Manufacturing and Sales of Stabilizers and Additives for Plastics (USA)

Riken Americas Corporation
- Manufacturing and Sales of Thermo Plastic Elastomer Compounds and PVC Compounds (USA)

MC Zhenjiang Anode Solutions Co., Ltd.
- Manufacturing and Sales of Anode for Aluminum Smelting (China)

Carbon Fiber Recycling Business (UK)
ELG Carbon Fibre
- A joint venture between German metal recycling company ELG Haniel GmbH and MC, the company located near Birmingham in the UK has commercialized the world's first carbon fiber recycling business, and is selling its products to electronics and automotive applications.

Silica Sand Business (Australia)
Cape Flattery Silica Mines Pty., Ltd.
- One of the World’s Largest Silica Sand Suppliers
- A wholly owned subsidiary of MC that owns one of the world’s largest silica sand mines located in Australia. For over 50 years the company has supplied silica sand, which is the raw material used for various products such as sheet glass and LCD glass, to Japan and other Asian countries where demand has grown remarkably.

Needle Coke Business (South Korea)
PMC Tech Co., Ltd.
- Growth as a Global Major Company in Carbon
- A joint venture between Mitsubishi Chemical Corporation, MC, and POSCO Chemical, a subsidiary of Korea’s largest steelmaker, POSCO. It is engaged in the production and sale of needle coke, the raw material used for manufacturing artificial graphite electrodes for electric furnaces.
## Industrial Materials Group

The Industrial Materials Group engages in product sales, business development and investments in the automotive & mobility, construction and infrastructure sectors, where we handle a wide variety of materials such as carbon, steel products, and many other performance materials.

Here at the Industrial Materials Group, we aim to maximize our business value as we adapt to change and take advantage of new business opportunities amidst the diversifying need for materials. As we directly address the challenges facing our industry, we will concentrate our efforts in businesses where we can fully demonstrate our virtues and functional capacity.

### Metal One Corporation

Metal One Corporation (Metal One), established in 2003, is a company jointly owned by MC and Nissho Iwai Corporation (now Sojitz Corporation). With over 140 subsidiaries and affiliated companies around the world, Metal One creates a value chain connecting steel manufacturers and customers by providing integrated services including distribution, inventory, processing, and manufacturing in addition to sales of steel products.

### Steel Business (Japan)

**Metal One Corporation**

Leading Company in Steel Products Value Chain

Metal One Corporation (Metal One), established in 2003, is a company jointly owned by MC and Nissho Iwai Corporation (now Sojitz Corporation). With over 140 subsidiaries and affiliated companies around the world, Metal One creates a value chain connecting steel manufacturers and customers by providing integrated services including distribution, inventory, processing, and manufacturing in addition to sales of steel products.

METOR is a methanol production and sales joint venture with Venezuela’s state-owned petrochemicals firm Pequiven, Mitsubishi Gas Chemical, and others. Its second plant began operating in 2010, increasing annual production capacity to 1.6 million tons. METOR is widely symbotic of Japan-Venezuela relations.

STRARIO was established in 1981 by Saudi Petrochemical Development (in which MC is an investor) and Saudi Basic Industries Corporation. Three expansions later, it is now one of the industry’s leading manufacturers, selling polyethylene and ethylene glycol to customers all over the world.

Exportadora de Sal, S.A. de C.V. (ESSA)
World’s Largest Solar Salt Operation
A joint venture with the Mexican government, ESSA is the world’s largest solar salt operation, supplying high-quality salt to Japan, the U.S., and other nations. Each year, ESSA’s eco-friendly evaporation of seawater yields 8 million tons of salt (including half of Japan’s imports).

Methanol Manufacturing & Sales Business (Venezuela)
METOR de Oriente, METOR S.A. (METOR)
A Business Linking Japan and Venezuela
METOR is a methanol production and sales joint venture with Venezuela’s state-owned petrochemicals firm Pequiven, Mitsubishi Gas Chemical, and others. Its second plant began operating in 2010, increasing annual production capacity to 1.6 million tons. METOR is widely symbotic of Japan-Venezuela relations.
Petroleum & Chemicals Group

The Petroleum & Chemicals Group’s mission is to secure stable supplies of energy and chemical materials, products that are essential to industries, societies and everyone’s quality of life. Our operations include both the trade and manufacturing of a wide scope of materials, such as crude oil, petroleum products, liquefied petroleum gas (LPG) and petrochemicals, salt and methanol.

Our Group remains dedicated to both strengthening its core businesses and developing new and highly adaptable business models, understanding that our operating environment is likely to undergo significant upheaval in the coming years due to shifts to low-carbon societies, concerns over ocean plastics, and other challenges that highlight the growing importance of environmentally conscious business activities.

Petroleum Div.
Crude oil, petroleum products, LPG, wood pellets

Copper Business (Peru)
Quellaveco
A World Class Copper Project
Quellaveco is one of the world’s largest undeveloped copper deposits, with high cost competitiveness and containing approximately 7.5 million tonnes (content metal basis) of copper in ore reserves. Development of the project commenced in August 2018, with the estimated first copper production in 2022.

Copper Business (Chile)
Escondida Mine
World’s Largest Copper Mine
Escondida is the largest copper mine in the world by production. The first shipment of copper concentrate from Escondida took place in 1990. Following subsequent expansion phases, the nominal production capacity of Escondida is 1.2 million tons per annum of copper concentrate and copper cathode. In addition to being the largest copper mine by production, the size of Escondida’s copper reserve and its cost competitiveness make it one of the world’s prime mines.

Copper Business (Chile)
Anglo American Sur
A World-Class Copper Asset
Anglo American Sur holds a significant portfolio of copper assets in Chile, including the Los Bronces mine, the El Soldado mine, the Chagres smelter and large-scale prospective exploration properties. They currently produce approximately 420 kilotonnes of copper per annum.

The Mineral Resources Group is engaged in the trading, business development, and investment of various mineral resources and metals. These include ferrous raw materials such as metallurgical coal and iron ore, as well as non-ferrous metals such as copper and aluminum.

By accurately assessing customer needs in each segment and operating businesses that adapt to the global market with looking ahead to the utilization of digital technologies like AI/IoT and the expansion of electric vehicle market, we aim to maximize our business value.

Metallurgical coal and copper as its main pillars, the Mineral Resources Group’s mission is to further enhance the competitive advantage as well as the quality of its world-class quality assets, while delivering long-term sustainability in ways which are good for the environment and for supply chain.
MC Machinery Systems, Inc. (USA)
Development of Machine Tools Distribution Business in the Americas
MC Machinery Systems responds to manufacturing industry needs by concentrating its efforts in the distribution business of electric discharge machines, laser processing machines, and other machine tools. Within the Americas, MC Machinery Systems mainly operates the U.S., Canada, and Mexico.

FPSO Chartering Business (Brazil)
FPSO Charter, Operation, and Maintenance for Ultra-Deepwater Oil Fields
MC has joint ventures with SBM Offshore, a global leader in the FPSO sector, for the charter, operation and maintenance of FPSO units for ultra-deep water oil and gas developments, which are chartered by Petrobras, the national oil company of Brazil. Three FPSOs are each in service on a 20-year term with a production capacity of around 150,000 bbl/day.

Fertilizer Plant Construction (Turkmenistan)
Design & Construction of Ammonia & Urea Fertilizer Plants
Upon establishing a consortium with Gap Insaat, a subsidiary of Calik Holding in Turkey, we now work together with Mitsubishi Heavy Industries Engineering to design and construct ammonia and urea fertilizer plants. We use EPC (Engineering, Procurement, Construction) as a means to promote national development and help our customers’ companies grow.

Fertilizer Plant Construction (Uzbekistan)

Pipe Manufacturing Plant Construction (Russia)

MC Lift & Solution Co., Ltd. (Thailand)

MC Machinery Systems responds to manufacturing industry needs by concentrating its efforts in the distribution business of electric discharge machines, laser processing machines, and other machine tools. Within the Americas, MC Machinery Systems mainly operates the U.S., Canada, and Mexico.

Hot Strip Mill Construction (India)

MC Lift & Solution Co., Ltd. exports & Sale of Elevators

Electrical Corporation

Mitsubishi Elevator India Pvt. Ltd. (India)
Company that Produces, Sells & Maintains Mitsubishi Electric Corporation’s Elevators in India
Since its establishment in 2012, Mitsubishi Elevator India has developed its business of selling and maintaining elevators in collaboration with Mitsubishi Electric Corporation. Mitsubishi Elevator India rolled out a new factory in 2016 and started local production with the aim of further expanding its business in India’s elevator market.

MC continues to support the maritime industry by leveraging its ship owning & chartering business to further develop global transportation logistics.

Distribution of Agricultural Machinery (Thailand)

Design & Construction of Ammonia & Urea Fertilizer Plants

MC Lift & Solution Co., Ltd.

MBI Farm Machinery Co., Ltd.

LNG Receiving Terminal Business (Bangladesh)

MC Machinery Systems responds to manufacturing industry needs by concentrating its efforts in the distribution business of electric discharge machines, laser processing machines, and other machine tools. Within the Americas, MC Machinery Systems mainly operates the U.S., Canada, and Mexico.

MC Lift & Solution Co., Ltd.

Electrical Corporation

Mitsubishi Elevator India Pvt. Ltd. (India)
Company that Produces, Sells & Maintains Mitsubishi Electric Corporation’s Elevators in India
Since its establishment in 2012, Mitsubishi Elevator India has developed its business of selling and maintaining elevators in collaboration with Mitsubishi Electric Corporation. Mitsubishi Elevator India rolled out a new factory in 2016 and started local production with the aim of further expanding its business in India’s elevator market.

MC continues to support the maritime industry by leveraging its ship owning & chartering business to further develop global transportation logistics.
Here in the Industrial Infrastructure Group, our diverse scope of operations connect us with a broad range of industries and partners, and we are leveraging those connections to develop a variety of business models in the fields of plant engineering, industrial machinery, as well as maritime and aerospace-related business.

We provide tailored services and solutions that meet customer needs in various industries, such as technological innovations, digitization, transformation of industrial structures, and environmentally friendly solutions. Our mission is to evolve into a comprehensive industrial infrastructure provider capable of working hand in hand with customers to realize sustainable growth by actively promoting the development of new businesses with adjacent industries.

**Plant Engineering Div.**

- FPSO* (joint venture with SBM Offshore), LNG liquefaction plants, energy infrastructure such as LNG receiving and vaporization facilities, large industrial plants involved in chemicals, ironmaking, nonferrous and other businesses, industry-related infrastructure, plant machinery such as compressors, etc.

**Industrial Machinery Div.**

- Rental business and distribution business for industrial machinery such as construction machinery, mining machinery, machine tools, agricultural machinery, and elevators.

**Ship & Aerospace Div.**

- Marine vessels (bulk carriers, tankers, container ships, LNG/LPG carriers, special purpose ships for marine resource development, etc.), offshore structures (FPSO* (joint venture with MDSEC, etc.), marine machinery, satellite imagery, aircrafts and aircraft engines, defense-related equipment, etc.)

*Floating Production, Storage & Offloading System
Developing Automotive Business Value Chain

In 1970, PT. Krama Yudha Tiga Berlian Motors (KTB) was established in Indonesia as the general agent for sales and imports of Mitsubishi Motors and Mitsubishi Fuso products, and has been developing the automotive business for around half a century. In April 2017, KTB business was restructured and divided by brands, so as to establish a stable value chain in terms of production, sales, automobile finance, after-sales services, and used vehicle sales. Centered on PT. Mitsubishi Motors Krama Yudha Sales Indonesia (MMKSI) and KTB, which handle Mitsubishi Motors products and Mitsubishi Fuso products respectively.
In the Automotive & Mobility Group, we are deepening our presence in the production, sales & distribution, financing and after-sales service of passenger and commercial vehicles, and developing the so-called “Automotive Value Chain” on a global scale with a focus on ASEAN countries.

Our Group has developed its business in tandem with Japanese car manufacturers expanding their business to overseas markets, and one of our missions, particularly in the field of sales, has been to grasp highly localized customer needs & voices and reflect them in product specs & quality, as well as in after-sales services, to finally enhance product appeal and brand loyalty.

We are seizing opportunities created by digitization and the CASE (Connected, Autonomous, Shared/Service and Electric) evolution, strengthening businesses anchored on Mitsubishi Corporation’s long-developed functions and localized networks, and spearheading solutions in the mobility services related to passenger & cargo transportation.

The adaptability to society’s needs and the environment is more important than ever, so our Group is paying careful attention to customer needs around the world and aiming for sustainable growth.

**Automotive Business Div.**
- Overseas local production and sales business
- Overseas automobile finance, after-sales service and other related businesses
- Automobile exports (built-up vehicles, assembly and spare parts)
- Mobility service-related business

**Isuzu Business Div.**
- Overseas local production and sales business
- Overseas automobile finance, after-sales service and other related businesses
- Automobile exports (built-up vehicles, assembly and spare parts)
- Mobility service-related business

---

**Business in China**

**Developing Automobile Production, Sales & Automobile Finance Business**

In 2012, GAC Mitsubishi Motors Co., LTD. (GMMC), a joint venture between Guangzhou Automobile Group Co., Ltd., Mitsubishi Motors Corporation and Mitsubishi Corporation, was established and started its operations as the company responsible for production and sales of Mitsubishi Motors products in China. Since its establishment, it has been dedicated to expanding sales of SUV models, a segment in which Mitsubishi Motors particularly has a presence. In 2018, we started automobile finance business, utilizing Hongling Financial Leasing Co., Ltd. in Shanghai as the base for expanding the value chain further, while also working on initiatives for developing new downstream businesses, with the aim of accomplishing both profits and the number of vehicle sales in China’s market.
Ipanema Coffees

One of the World’s Largest Coffee Plantations

Ipanema Plantation produces about 3.250 tons (1 billion cups) of coffee per year. The plantation produces high-quality specialty coffee which has been certified by organizations in the U.S. and Europe for sound social and environmental practices. MC acquired a stake in 2012 and has been focused on further mechanizing and streamlining cultivation and harvesting practices in order to secure a stable supply of high-quality coffee.

Food & Drink Supplier (UK)
Princes Limited

Leading UK-Based Food and Drink Supplier

Princes has grown sales in the UK grocery market through the manufacture, import and distribution of branded and private brand products, including canned foods, edible oils, pastas, soft drinks, amongst others. With popular brands in the UK such as Princes and Napolina, the company is expanding its business operations into the wider European market.

Salmon Farming Business (Norway)
Cermaq Group AS

Supplies Safe & Secure Farmed Salmon Worldwide

The third largest salmon (including trout and coho) farming, processing and sales company in the world. Cermaq produces salmon in Norway, Chile and Canada for a total production quantity of around 180 thousand metric tons per year. Cermaq became a subsidiary of MC in 2014 and supplies sustainable, safe, and secure farmed salmon to consumers around the world.

Malitot Manufacturing Business (Thailand)
MC Towa International Sweeteners Co., Ltd.

Supplying Sweeteners Mainly to the World’s Major Confectionary Makers

MC-Towa International Sweeteners (MTIS) was established in Thailand in 2003 as a maltitol producer under MC’s subsidiary, Mitsubishi Corporation Life Sciences, which develops MC’s food chemicals business. MTIS is expanding its business mainly with confectionary makers, both in Japan and around the world, and developing globally competitive polyol operations.

Processed Oils & Fats
Olam International Limited

Major Global Agribusiness Company

Olam International is a leading agribusiness company that is developing its operations in 70 countries around the world. It has established a supply chain that emphasizes sustainability and traceability in everything from agricultural production to assembly and manufacturing, and boasts one of the world’s largest shares of coffee, cocoa, nuts, and other products. MC concluded a business alliance agreement with Olam in 2015.
Food Industry Group

Mitsubishi Corporation Life Sciences Limited

Healthy, Safe, Secure & Delicious

Mitsubishi Corporation Life Sciences is a food ingredients manufacturer that promotes food and health. The company helps develop an assortment of foods and meals by leveraging the strengths of life science technologies, and is constantly working towards making a positive contribution to the creation of a healthy and fun food culture, one that’s puts a smile on the faces of consumers around the world.

The Food Industry Group is engaged in businesses that deliver food-related products to consumers all over the world. Our operations cover food resources, fresh foods, consumer products, food ingredients and other products. We are active in every link of the supply chain, from the production and sourcing of raw materials to the manufacturing of finished food products.

Our mission is to provide a stable supply of goods and services that meet consumer needs and help to provide people with a diverse and rich quality of life. Recognizing our responsibility to meet and exceed health and environmental standards, we undertake those businesses that prioritize consumer safety and security, and by doing so, we provide the kind of value that is sought by society.

We have made a firm commitment to realizing stable, sustainable growth by horizontally developing quality products and services in global markets, creating new growth opportunities, flexibly responding to economic and industrial changes, and becoming an increasingly competitive player in the food sectors.

Food Sciences Div. Pharmaceutical raw materials and intermediates, agrochemical raw materials, intermediates, and products, cosmetic raw materials, food ingredients and formulas (food science products), health ingredients and products (health science products)

Food Resources Div. Corn, milo, wheat, barley, soybean, rapeseed, compound feed materials, coffee, cocoa, confectionary ingredients, sesame seed, edible nuts, spices, dried vegetables, oils and fats, oil and fat products, etc.

Fresh Food Products Div. Marine products (tuna, shrimp, salmon and trout, etc.), processed seafood products, rice, fresh produce, cheese, dairy products, chicken, pork, beef, processed meat products, etc.

Consumer Products Div. Consumer goods such as processed foods, confectionery, beverages, canned goods, instant noodles, seasonings, milled flour, sugar, starches, starched products, and other daily necessities.
Lawson

Convenience Store Business (Japan)

Lawson has evolved from a "convenience store" for quick shopping into "an essential part of people's daily lives." As the company expands its product and service offerings—financial services, store pickups for online shoppers, catering to the health-conscious, etc.—its main aim is to satisfy the everyday needs of customers in local neighborhoods while responding to societal change.

The Consumer Industry Group continues to address major challenges faced by consumers in the retail, apparel, SPA (specialty store retailer of private label apparel), healthcare and food distribution, logistics and tire industries. Furthermore, by integrating real and digital business models, we are aiming to build retail and distribution platforms that offer the utmost value to consumers.

Consumer needs are becoming increasingly diverse and fragmented due in part to the widespread use of smartphones and technological innovations (AI, IoT, block chains, etc.). Our challenge is to accurately grasp those needs and generate value by leveraging MC’s extensive consumer network.

Manufacturing and sale (wholesale, retail, e-commerce), export / intermediary trade, and domestic trade of tires.

Retail business, marketing business, coalition loyalty program, payment settlement and other finance-related services, various businesses utilizing customer data, and the development of various consumer products and services.

Clothing, fashion accessories and houseware, footwear, marketing services, etc.

Processed foods, frozen and chilled foods, confectioneries, alcoholic beverages, packaging products, raw materials used for packaging, packaging solutions, bleached paperboards, containerboard cases, packaging technical systems, paper products, non-woven fabrics, wood chips as paper raw material, medical equipment, medical supplies, pharmaceuticals, solutions for medical institutions, nursing care equipment.

Comprehensive logistics business, reinsurance business, development of new business in the logistics industry.
Diamond Generating Corporation (DGC) (USA)
Developing Power Businesses in the Americas
DGC was founded in 1999 to oversee MC’s electric power businesses in the Americas, such as power generation, distributed power generation, and energy trading. DGC operates its large-scale power generation business through its subsidiary, Diamond Generating LLC, and as of late fiscal year 2018, DGC owns approximately 3,500 MW of power generation assets on an equity basis.

Diamond Generating Europe Limited (DGE) (UK)
Developing Power Businesses in Europe, the Middle East and Africa
DGE was established in 2012 to oversee MC’s electric power businesses in Europe, the Middle East and Africa, including power generation and energy trading. DGE aims to expand its business while also focusing efforts in renewable energy sources, a sector distinctive to the region. As of late fiscal year 2018, DGE holds approximately 900 MW of power generation assets on an equity basis.

Diamond Generating Asia, Limited (DGA) (Hong Kong)
Developing Power Businesses in Asia and Oceania
Established in 2009, DGA serves as a base for MC’s electric power businesses in Southeast Asia and Oceania. The company aims to expand its power generation business in the region, which is showing steady signs of demand for electricity. As of late fiscal year 2018, DGA holds approximately 1,250 MW of power generation assets on an equity basis.

Thermal Power Plant Construction (Uzbekistan)
Gas Turbine Combined Cycle Power Plant EPC Project in Uzbekistan
The 900 MW gas turbine combined power plant in Turkakurgan which is being built for Uzbekenergo. MC and Mitsubishi Hitachi Power Systems Ltd. were awarded a full turnkey contract back in November 2016, and construction is scheduled for completion in 2020. Uzbekistan has the largest population in Central Asia, and the demand for electricity is expected to grow even further due to economic growth. MC will continue its active role in developing power infrastructure in this region.

This project will help MC provide Qatar with a stable supply of electricity and water, and shore up MC’s efforts in its global power generation and fresh water business in response to growing demand around the globe.
The Power Solution Group is composed of two divisions, the Environmental Business Division and the New Energy & Power Generation Division. Underpinned by its core strategy in electric power businesses and environmental businesses, our Group takes a comprehensive approach to meeting diversifying electricity needs.

Our main business activities include creating new businesses in the power sector by utilizing distributed solar power generation and other renewable energies, which can reduce global warming, to help realize a low-carbon society. Our Group is also actively involved in lithium-ion batteries, an essential component for the dissemination of today’s environmentally friendly electric vehicles. We also conduct field experiments on other energy sources such as hydrogen, a fuel source that is expected to open up the next-generation of clean energy.

Not only is our Group helping to secure stable supplies of electricity by combining renewables and other clean sources with digital technologies, but it is also playing its part to build sustainable societies and raise corporate value by offering new added value to our customers such as by providing functions that adjust supply and demand.
Private Equity Business (USA)
One Rock Capital Partners

Urban Infrastructure Div.

Urban Development Div.

Asset Finance Div.

The Urban Development Group is comprised of, and promotes the businesses of, the following three divisions: Urban Infrastructure, Urban Development, and Asset Finance. Our Group's mission is to meet social and environmental needs, such as urbanization and reducing our environmental footprint, while comprehensively fusing the expertise MC has accumulated in these sectors to promote large-scale and high value-added urban development projects in Japan and around the world.

The Urban Infrastructure Division focuses on the development and management of airports, railways, roads, water supplies, and data centers.

The Urban Development Division focuses mainly on urban development projects in ASEAN, and is engaged in the development of industrial facilities, retail facilities, and housing properties, primarily in Japan, North America and Asia. It also creates and manages real estate funds.

The Asset Finance Division offers a wide variety of financial services including leasing, installment sales and asset finance through Mitsubishi UFJ Lease & Finance Co., Ltd. and provides aircraft and automobile leasing services. The division also engages in private equity businesses focused on Japan, North America, and the ASEAN region.
Sustainability & CSR

Mitsubishi Corporation (MC) regards its corporate philosophy, the Three Corporate Principles, as the cornerstone of all of its activities. With this in mind, MC has laid out the purpose and ideals of its activities in the Corporate Standards of Conduct, along with upholding the importance of consideration for the global environment and respect for human rights in the Environmental Charter and Social Charter. These concepts are guiding MC forward as it pushes ahead with its business activities.

Midterm Corporate Strategy 2021 also re-emphasizes the need to simultaneously generate economic, societal, and environmental value in order to achieve growth for the MC Group through its business management model.

Specifically, MC will strive to create businesses that generate value for society by addressing key sustainability issues through its business activities, thereby ensuring sustainable growth for the company. At the same time, MC will also strive to further enrich society through its philanthropic activities.

Key Sustainability Issues (Materiality)

MC recognizes that its response to global sustainability issues will have a significant impact on its prospects for long-term growth. Therefore, the company has identified “Themes of Key Importance for MC’s Sustainable Growth” as a management priority and is committed to pursuing sustainable growth in line with these themes. As part of this, MC is also endeavoring to contribute towards the achievement of the SDGs*.

* The SDGs are a collection of 17 international goals that form the basis of the 2030 Agenda for Sustainable Development which was adopted as a global priority at a UN summit held in September 2015.

Promotion Framework

Sustainability & CSR Committee and Investment Committee

The Sustainability & CSR Committee, which is chaired by the Corporate Functional Officer (in charge of corporate sustainability & CSR) and mainly attended by the Executive Vice Presidents, discusses MC’s basic policies regarding sustainability and CSR in general, among other matters. Moreover, the Investment Committee reviews and makes decisions on individual loan and investment proposals from a comprehensive perspective, considering not only economic aspects but also environmental and social aspects.

The Sustainability Advisory Committee

MC established a Sustainability Advisory Committee which is comprised of eight external experts who represent MC’s diverse stakeholder groups including NGOs, international agencies, ESG investors and academia. The committee actively incorporates external stakeholder perspectives into systems that utilize MC’s sustainability initiatives.
In 1973, MC established an office to oversee social and environmental affairs. Today MC focuses on philanthropic activities that are in line with three overarching themes: “Realizing an Inclusive Society,” “Empowering the Next Generation” and “Conserving the Environment.” In addition, MC also provides support for regions affected by natural disasters which includes recovery efforts for the Great Japan Earthquake. Our employees worldwide have participated actively in long-running programs that focus on contributing to the communities in which we operate.

Friendship Camp for Mothers and Children
This camp for single mothers and their children provides the opportunity for participants to experience the great outdoors. Held since 1974, the camp is run by MC Group staff members who volunteer as camp counselors.

Mitsubishi Corporation Art Gate Program
This program was launched in 2008 to help aspiring young individuals pursue their dreams of becoming professional artists. MC purchases and then sells young artists’ artwork through charity auctions, which are open to the public, and then uses the revenue from these auctions to fund scholarships for future artists.

Regeneration of Tropical Forests
MC began the first experimental project in Malaysia in 1990 with the aim of regenerating tropical forest ecosystems at an accelerated rate. Since then, the project has expanded to locations in Brazil and Kenya.
MC has made strengthening corporate governance on an ongoing basis an important management concern as the foundation for ensuring sound, transparent and efficient management. MC, based on the Audit & Supervisory Board Member System, is thus working to put in place a corporate governance system that is even more effective. This includes strengthening management supervision through such measures as appointing Outside Directors and Outside Audit & Supervisory Board Members (five Outside Directors and three Outside Audit & Supervisory Board Members) who satisfy the conditions for Independent Directors or Independent Audit & Supervisory Board Members, and establishing advisory bodies to the Board of Directors where the majority of members are Outside Directors and Outside Audit & Supervisory Board Members as well as other experts from outside the company (Governance, Nomination and Compensation Committee and International Advisory Committee). At the same time, MC uses the executive officer system for prompt and efficient decision-making and business execution.

MC’s efforts to improve and strengthen our internal control system are ongoing in order to increase corporate value through proper and efficient business operations in conformity with the law and our Articles of Incorporation. The internal control system covers: compliance, financial reporting, internal auditing and monitoring, management and storage of information, risk management, efficient business execution, ensuring proper business in group management, and Audit & Supervisory Board Members.
MC has established various internal regulations based on the Three Corporate Principles, MC’s guiding philosophy. These include the Corporate Standards of Conduct and Code of Conduct. When engaging in business, officers and employees are obligated to make compliance their top priority. MC also introduced the post of Compliance Officer and appointed one to each Business Group. These officers are responsible for ensuring compliance in daily business operations.

All company officers and employees are required to take e-learning courses, which include case studies on the Code of Conduct. Following these courses, they must sign an agreement stating that they understand and will adhere to the rules at all times. These protocols are now being implemented at MC’s subsidiaries and affiliates, as well. Additional steps that have been taken throughout the MC Group include holding Compliance Discussions to encourage personnel to discuss compliance issues in each work place by using case studies (i.e. possible violations in view of the office’s operations) and seminars, and distributing Compliance Case Study Booklets to employees. These measures will ensure ongoing learning and development, not only by employees and officers at MC, but by those at MC’s subsidiaries and affiliates as well. As of fiscal year 2019, MC’s Chief Compliance Officer shall now not only serve as the chairperson of the Compliance Committee, but also as the chairperson of the Security Trade Control Committee and the Trade Procedures Control Committee.

MC’s actions are all based on this spirit of compliance; it remains an essential factor in raising consolidated corporate value and we remain committed to continuously upgrading and reinforcing our compliance initiatives.
