* Mitsubishi Corporation will hold an earnings conference in Tokyo for the six months ended September 2017 on November 7, 2017 (Tuesday) from 15:00 to 16:30 (Japan Time), inviting institutional investors to join. The conference material can be accessed live in Japanese from the following URL:

<http://www.mitsubishicorp.com/jp/ja/ir/index.html>

(English interpretation of the conference call will be posted in the Investor Relations section of our web site as soon as it becomes available.)

1. Qualitative Information

(Profit for the period, as used hereinafter, refers to profit for the period attributable to owners of the Parent.)

(1) Results of Operations

Revenues was ¥3,657.1 billion, an increase of ¥724.5 billion, or 25% year over year, mainly due to increases attributed by Lawson, Inc. (hereinafter "Lawson") becoming a subsidiary and higher market prices in the Australian coal business.

Gross profit was ¥905.9 billion, an increase of ¥354.2 billion, or 64% year over year, mainly due to increases attributed by Lawson becoming a subsidiary and higher market prices in the Australian coal business.

Selling, general and administrative expenses rose ¥220.9 billion, or 49% year over year, to ¥676.3 billion, mainly due to increases attributed by Lawson becoming a subsidiary.

Gains on investments decreased ¥21.3 billion year over year, to ¥14.7 billion, mainly due to the rebound of one-off gains accompanied by the business merger among associate companies in the previous year.

Impairment losses on property, plant and equipment and others amounted to ¥39.9 billion, an increased loss of ¥35.6 billion year over year, mainly due to impairments of resource-related assets in the current year.

Share of profit of investments accounted for using the equity method increased ¥38.1 billion, or 60% year over year, to ¥101.9 billion, mainly due to higher resource-related market prices.

As a result, profit before tax increased ¥118.6 billion, or 46% year over year, to ¥375.0 billion.

Accordingly, profit for the period grew ¥74.2 billion, or 41% year over year, to ¥254.0 billion.

(2) Financial Position

Total assets as of September 30, 2017 was ¥15,969.2 billion, an increase of ¥215.6 billion from March 31, 2017. The increase was mainly due to a rise in trade and other receivables in line with higher transaction prices and transaction volumes and the fact that the end of the period fell on a holiday in spite of lower cash and cash equivalents owing to the repayment of bonds and borrowings.

Total liabilities was ¥9,800.0 billion, a decrease of ¥164.5 billion from March 31, 2017. This decline was attributable to the repayment of bonds and borrowings, although trade and other payables expanded as a result of higher transaction prices and the fact that the end of the period fell on a holiday.

Net interest-bearing liabilities, which is gross interest-bearing liabilities minus cash, cash equivalents and time deposits, decreased ¥196.8 billion from March 31, 2017, to ¥3,794.7 billion.

Equity attributable to owners of the Parent was ¥5,241.7 billion, an increase of ¥324.5 billion from March 31, 2017. This increase was mainly due to the accumulation of profit for the period.

(3) Cash Flows

Cash and cash equivalents as of September 30, 2017 was ¥1,023.6 billion, down ¥121.9 billion from March 31, 2017.

(Operating activities)

Net cash provided by operating activities was ¥405.0 billion, mainly due to cash flows from operating transactions and dividend income, despite the payment of income taxes.

(Investing activities)

Net cash used in investing activities was ¥111.3 billion. The main uses of cash were for capital expenditures and investment in affiliated companies, despite cash provided by the sale of listed stocks and sale of shares in the real estate-related business.

As a result, free cash flows, the sum of operating and investing cash flows, was positive ¥293.7 billion.

(Financing activities)

Net cash used in financing activities was ¥433.6 billion, mainly due to the repayment of borrowings, redemption of bonds, and the payment of dividends at the Parent.

(4) Forecast for the Year Ending March 2018

Due to factors such as the progress to date against the initial forecast (announced on May 9, 2017), forecast for the year ending March 2018 has been revised as follows.

Consolidated Forecast for the Year Ending March 2018 (April 1, 2017 to March 31, 2018)

	Forecast for the year ending March 2018 (Released on May 9)	Forecast for the year ending March 2018 (Revised)	Variance	Six months ended September 2017	Consolidated Net Income Sensitivities
Foreign Exchange (YEN/US\$)	110.00	110.00	±0	111.04	Depreciation/appreciation of 1 yen per US\$1 has a 2.5 billion yen positive/negative impact on a full-year basis.
Crude Oil Price (Dubai) (US\$/BBL)	50	50	±0	50	A US\$1 rise/decline per barrel increases/reduces full-year earnings by 2.0 billion yen. In addition to changes in crude oil prices, other factors could also affect crude oil-related earnings, such as differences in the fiscal year-ends of consolidated companies, timing of the reflection of the crude oil price in sales prices, dividend policy, foreign currency movements, and production/sales volume.
Copper (US\$/MT) [¢/lb]	5,512 [250]	6,019 [273]	+507 [+23]	6,013 [273]	A US\$100 rise/decline per MT increases/reduces full-year earnings by 1.3 billion yen (A US¢10 rise/decline per lb increases/reduces full-year earnings by 2.9 billion yen). Besides copper price fluctuations, other variables affect earnings from copper mines, such as the grade of mined ore, the status of production operations, and reinvestment plans (capital expenditure). Therefore, the impact on earnings cannot be determined by the copper price alone.
YEN Interest TIBOR (%)	0.10	0.10	±0	0.06	The effect of rising interest rates is mostly offset by an increase in operating and investment profits. However, a rapid rise in interest rates could have a temporary negative effect.
US\$ Interest LIBOR (%)	1.40	1.40	±0	1.26
