3. Changes in Accounting Policies and Accounting Estimates

The significant accounting policies applied to the condensed consolidated financial statements for the six months ended September 2023 are identical to those for the previous fiscal year, except for the following:

New standards and interpretations applied

Standards and interpretations	Outline
IAS 12 Income Taxes (Amended)	Deferred Tax related to Assets and Liabilities arising from a single Transaction

IAS 12 Income Taxes (Amended)

The Company has applied IAS 12 (Amended) from the first three months of the fiscal year ending March 2024. As a result, the beginning balance of “Investments accounted for using the equity method” and “Retained earnings” in the consolidated statement of financial position, and “Retained earnings” in the consolidated statement of changes in equity for the year ended March 2023, decreased by ¥5,381 million, respectively.

In the consolidated statement of changes in equity for the year ended March 2023, “Cumulative effects of change in accounting policy” in “Retained earnings” decreased by ¥22,384 million. This includes a decrease of ¥5,381 million due to the application of IAS 12 (Amended) as above, as well as a decrease of ¥17,003 million due to IAS 37 “Provisions, Contingent Liabilities and Contingent Assets” (Amended) applied from the previous fiscal year.

In accordance with the application of IAS 12 (Amended), the accounting treatment at the time of initial recognition of transactions that result in recognizing equivalent amounts of taxable and deductible temporary differences is clarified, and “Deferred tax liabilities” and “Deferred tax assets” are recognized in the consolidated statement of financial position for such taxable and deductible temporary differences, respectively. In certain businesses under investments accounted for using the equity method, the Company recognized deferred tax liabilities without recognizing deferred tax assets due to lack of recoverability. As a result, the Company made the retrospective adjustment to “Investments accounted for using the equity method” and “Retained earnings” as described above.

Except standards and interpretations outlined above, the adoption of new standards and interpretations had no significant impact on the condensed consolidated financial statements for the six months ended September 2023.
