

Mitsubishi Corporation

Midterm Corporate Strategy 2021

Achieving Growth Through Business Management Model

November 2, 2018

Mitsubishi Corporation

Takehiko Kakiuchi

Outline of Midterm Corporate Strategy 2021

Our new Midterm Corporate Strategy aims to realize triple-value growth* through MC's business-management model. It will make MC more adaptable to changing geopolitical dynamics, the transition to a digital age and other rapid developments. The strategy's four sections are outlined below.

* Simultaneously generating economic value, societal value, and environmental value

1	Business Portfolio	- Portfolio-Based Decision Making - Strategy Creation Through Multi-Dimensional Portfolio Analyses
2	Growth Mechanisms	- Value-Added Cyclical Growth Model & Improved ROE - Enhancement of New Business Concepts & Digital Strategies
3	HR System Reforms	- Continuous Development of Highly Skilled Management Professionals - Redesigned Evaluation and Compensation Systems to Ensure Reciprocal Growth Between Company and Employees
4	Financial Targets & Capital Policy	- FY2021 Financial Targets: 900 Billion Yen - Financial Discipline and Extension of Progressive Dividend Scheme

External Environment

- Changing geopolitical dynamics due to "America-First" agenda in US, China's "One-Belt, One-Road" policy, and other factors.
- Strong US & China economies, solid Japan-West relations and growth in emerging economies countered by constant market volatility.
- Growing influence of platform companies and digitization on business models.

Internal Challenges

- Building our envisioned portfolio – one that is adaptable to changes in our operating environment.
- Stimulating triple-value growth* by actively engaging in the management of MC's business investments.
- Developing highly skilled management professionals.

Portfolio Strategies Aimed at Stimulating Further Growth

By strengthening our operations in the Services Sector and downstream businesses, we will endeavor to stimulate more growth in what is currently a very stable business portfolio.

Strategy Conception Through Multi-Dimensional Portfolio Analyses

We will optimize MC's portfolio by analyzing the company's businesses from a number of different vantage points, including region, industry presence and management engagement.

Value-Added Cyclical Growth Model & Improved ROE

We will identify Potential Growth Sources and nurture them into Growth Drivers and Core Businesses by enhancing their value. In this new cyclical growth model, even Core Businesses will be replaced with new Growth Driver Candidates if MC can no longer add value to them. This will have the added benefit of improving MC's ROE.

Potential Growth Sources → Growth Drivers → Core Businesses

Our new growth model will enhance business value through this divestment-to-reinvestment cycle

Reorganizations

To enhance our business creation capabilities and realize our envisioned portfolio, we will be restructuring MC into 10-Business Groups as of April 2019.

The Corporate Staff Section will be rearranged to focus on the main themes of Midterm Corporate Strategy 2021, namely our business portfolio, HR development and digital strategies.

Business Groups ***

Divisions

Natural Gas	- Natural Gas (Asia Pacific) - Natural Gas (Americas, Europe and ME)

*) Other Committees reporting to Executive Committee: Business Strategy Committee, Management Strategy Meeting, Sustainability & CSR Committee, Compliance Committee, Disclosure Committee
 **) Chief Digital Officer

Missions of the New Business Groups

Natural Gas	While LNG demand, as a principal source in both power and industrial sector, is growing, an energy-mix diversification through Japan market liberalization requires a new function of LNG supply/demand matching and adjustment to cope with an uncertainty. The mission is to improve our value to meet such a new era's needs.
Industrial Materials	Against a backdrop of an increasingly competitive environment, diversifying materials needs are likely to presents new business opportunities. The mission is to redefine the role MC can play in providing solutions to the industries in which it operates and focus resources in areas where the company can leverage its strengths and capabilities.
Petroleum & Chemicals	The transition to low-carbon societies and arising of environmental awareness continue to have an impact on the petroleum and chemicals industry. The mission is to find solutions in these industries by concentrating on its core businesses where MC can demonstrate its strengths and functions.
Mineral Resources	Metallurgical coal and copper as its main pillars, the mission is to further enhance the competitive advantage as well as the quality of its world-class quality assets, while delivering long-term sustainability in ways which are good for the environment and for supply stability.
Industrial Infrastructure	More and more market players are looking to go digital and reduce their carbon footprints. The mission is to redefine MC's position in industry by transitioning to high value-added business models providing solutions for industries, leveraging MC's existing machinery, ship and plant-and-engineering sales businesses.
Automotive & Mobility	The mission is to capture demand and leverage MC's formidable business foundations in the evolving automotive and mobility industries, which are embracing digital technologies and services encapsulated by CASE (Connected, Autonomous, Sharing and Electric). The Group will endeavor to build business models aimed at solving people-and-goods related mobility issues.
Food Industry	The mission is to help solve the societal challenges surrounding supply chains and build a stable and sustainable business model. The Group also contributes to Japanese companies by expanding their quality products and services into overseas markets, thereby creating new growth opportunities for them.
Consumer Industry	The mission is to spearhead solutions to societal challenges in the retail and distribution industries and maximize the value of MC's real-assets as social infrastructure, such as its retail stores network. It also effectively combines its real assets and digital technologies to build consumer-oriented retail-and-distribution platform businesses.
Power Solution	The mission is not only to contribute to stable power supplies, but also to create new added-values for power consumers/users by combining renewables and other environmentally-friendly energy sources and digital technologies.
Urban Development	The mission is to establish highly value-added and large scale businesses, through the combination of MC's expertise in such areas as urban development, infrastructure development, asset finance and so on to meet the global needs in urbanization and reduction of carbon footprints.

Enhancement of New Business Concepts & Digital Strategies

The Group Business Creation GM and Digital Strategy GM will work with the Business Creation Office and Digital Strategy Department to develop new business models.

HR System Reforms

We will be revising MC's HR system to: (1) Ensure that employees gain the right experience to become management professionals earlier in their careers; (2) Be more meritocratic to ensure that the right people are assigned to the right positions; and (3) Utilize management talent more widely and effectively throughout the MC Group. Our aims are to continuously produce highly skilled management professionals capable of exceling in different fields, and to foster reciprocal growth between the company and its employees.

Financial Targets & Capital Policy

By continuously growing MC's Business-Related Segments and making it more competitive in Market-Related Segments, we will aim for an even higher double-digit ROE. We will extend the current progressive dividend scheme, and aim to increase MC's dividend payout ratio from 30% to 35% in the future.

Capital Policy

Investment Plan

- Invest as necessary regardless of Business Group performance
⇒ Clean break from “market-follower” investment practice
- Maintain optimal asset balance in Business Related and Market-Related Segments (at least 70% in Business-Related Segment)

Cash Out

Cash In

Financial Discipline

Divestment Plan

- Divest to generate cash flow for new investments
- Assign divestment target to each Business Group

Dividend Policy

Dividend for net income of 900 billion yen with dividend payout ratio of 35% will be around 200 yen/ share

We will increase MC's shareholder returns by flexibly buying back the company's shares in a financially disciplined manner (e.g. paying due consideration to our optimal Investment Leverage Ratio range).
