For the nine months ended December 31, 2007	207.53	206.53
December 31, 2006	207.03	205.90
For the year ended March 31, 2007	246.52	245.18

(3) Assets and shareholders' equity

	Total assets	Shareholders' equity	Ratio of shareholders' equity to total assets	Shareholders' equity per share
As of	Millions of Yen	Millions of Yen	%	Yen
December 31, 2007	12,359,024	3,057,671	24.7	1,864.13
December 31, 2006	11,176,716	2,722,420	24.4	1,613.40
As of March 31, 2007	11,485,664	2,950,931	25.7	1,747.87

- (1) The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.
- (2) Operating transactions and operating income, as presented above, are voluntary disclosures solely for the convenience of investors in Japan. Operating transactions represents the gross transaction volume or the aggregate nominal value of the sales contracts in which the companies act as principal and transactions in which the companies serve as agent. Operating transactions exclude the contract value of transactions in which the companies' role is limited to that of a broker.
Operating income reflects the companies' (a) gross profit, (b) selling, general and administrative expenses, and (c) provision for doubtful receivables.
Operating transactions and operating income, as presented above, are non-US GAAP measures commonly used by similar Japanese trading companies and should not be construed as equivalent to, or a substitute or proxy for, revenues, or as an indicator of our operating performance, liquidity or cash flows generated by operating, investing or financing activities.
- (3) The outlook of operating transactions and net income for the year ending March 31, 2008 have not changed from the original outlook announced on October 31, 2007.

Forward-looking Statements

This presentation contains forward-looking statements about Mitsubishi Corporation's future plans, strategies, beliefs and performance that are not historical facts. Such statements are based on the company's assumptions and beliefs in light of competitive, financial and economic data currently available and are subject to a number of risks, uncertainties and assumptions that, without limitation, relate to world economic conditions, exchange rates and commodity prices. Accordingly, Mitsubishi Corporation wishes to caution readers that actual results may differ materially from those projected in this presentation.

For Immediate Release

**Mitsubishi Corporation Announces Consolidated Financial Results
for the Third Quarter Ended December 31, 2007
(Based on US GAAP)**

TOKYO, January 31, 2008.....Mitsubishi Corporation announced today its consolidated results, using accounting principles generally accepted in the United States, for the third quarter ended December 31, 2007.

[Qualitative Information and Financial Position]

1. Qualitative Information Concerning Consolidated Operating Results

(1) Summary of Fiscal 2008 Third-quarter Results (April 1, 2007 to December 31, 2007)

Consolidated operating transactions for the nine months ended December 31, 2007 rose 1,826.3 billion yen, or 11.9%, to 17,129.7 billion yen due to factors such as higher machinery- and metals-related transactions. Gross profit rose 34.0 billion yen, or 4.0%, to 887.5 billion yen. Although earnings were partly affected by a lower sales price in Australian coal operations, the higher gross profit mainly reflected continued strong transactions in non-resource segments and new consolidations.

Selling, general and administrative expenses rose 63.1 billion yen, or 11.6%, to 607.9 billion yen, mainly due to new consolidations as well as higher personnel expenses in line with business expansion.

Consequently, operating income declined 28.4 billion yen, or 9.3%, to 278.2 billion yen.

In other income-net, although there was an improvement in foreign currency transaction gains and losses, there was a decline in gain on marketable securities and investments-net due to the absence of the gain on sale of Diamond City Co., Ltd. shares recorded in the previous fiscal year.

As a result, income from consolidated operations before income taxes decreased 48.7 billion yen, or 10.3%, to 424.4 billion yen.

Net equity in earnings of affiliated companies rose 2.8 billion yen, or 2.7%, to 107.3 billion yen due to new consolidations in the overseas IPP business and other factors.

As a result of the above, net income declined 3.7 billion yen, or 1.1%, year on year to 345.6 billion yen. This result represented an achievement rate of 80.4% relative to the full-year forecast of 430.0 billion yen.

(2) Segment Information

1) Business Innovation Group

The group recorded a net loss of 0.9 billion yen, down 1.7 billion yen from net income in the same period of the previous fiscal year. While the conversion of an affiliated temporary staffing company into a subsidiary and healthy transactions at IT-related subsidiaries had a beneficial impact on earnings, the overall bottom-line result reflected the absence of gains on share sales recorded in the same period of fiscal 2007 and other factors.

2) Industrial Finance, Logistics & Development Group

This group recorded net income of 10.3 billion yen, down 17.3 billion yen year on year, mainly due to the absence of the gain on sale of Diamond City shares in fiscal 2007. The main factors contributing to segment net income, however, were gains on the sale of developed real estate and higher REIT-related earnings, as well as a strong overall performance in the logistics business.

3) Energy Business Group

The Energy Business Group returned net income of 60.8 billion yen, 8.2 billion yen higher year on year. This mainly reflected higher gross profit at an overseas resource-related subsidiary due to rising oil prices, a gain on the sale of part of Mitsubishi Corporation's equity interest in the Sakhalin II Project, and the recording of some foreign tax credits on overseas dividends in advance.

4) Metals Group

The Metals Group posted net income of 128.3 billion yen, a decrease of 19.7 billion yen from the same period in fiscal 2007. This result is mainly because of a decline in net income of an Australian coal subsidiary due to a lower coking coal selling price. However, the overall decline in net income was limited by higher earnings at companies involved with other metal resources such as iron ore and ferrochrome.

5) Machinery Group

This group posted net income of 52.7 billion yen, 7.4 billion yen more than in the corresponding period of the previous fiscal year. The major contributors to this higher net income were new consolidations in the overseas IPP business, recovery in the auto market in Asia and the beneficial impact of foreign exchange rate movements. Limiting an even higher increase was the absence of gains on the sales of shares recorded in fiscal 2007.

6) Chemicals Group

This group recorded net income of 28.0 billion yen, 8.6 billion yen more than in the first nine months of fiscal 2007. The main reasons for the higher earnings were tax benefits from a higher equity interest in a petrochemical business-related company, an increase in equity-method earnings and strong transactions at an overseas subsidiary.

7) Living Essentials Group

The group posted net income of 40.9 billion yen, 4.9 billion yen higher year on year, the result of strong performances in food-related businesses, including the effect of making some affiliated companies subsidiaries, and the effect of applying the equity method of accounting to a general merchandise-related company. The higher earnings were despite the absence of gains on sales of shares recorded in fiscal 2007.

2. Qualitative Information Concerning Consolidated Financial Position

Total assets as of December 31, 2007 were 12,359.0 billion yen, up 873.4 billion yen from March 31, 2007. Receivables-trade increased due to robust business activities, and business expansion resulting from new investments also led to increases in receivables-trade as well as property and equipment-net.

Total liabilities were 8,953.7 billion yen, up 736.0 billion yen from March 31, 2007, the result mainly of an increase in borrowing at the parent company and overseas subsidiaries to ensure sufficient liquidity to meet demand for funds for working capital and new investments, and of higher payables-trade, which tracked the rise in trade receivables.

Interest-bearing liabilities-net, which are interest-bearing liabilities-gross minus cash and cash equivalents, rose 383.0 billion yen to 3,429.3 billion yen. The net debt-to-equity ratio, which is net interest-bearing liabilities divided by total shareholders' equity at period-end, was 1.1.

Total shareholders' equity increased 106.7 billion yen from March 31, 2007 to 3,057.7 billion yen. The result is mainly because of the net income of 345.6 billion yen thanks to a strong performance. On the other hand, a 150.1 billion yen acquisition of the Company's own shares and the payment of dividends of 89.9 billion yen reduced shareholders' equity.

Forward-Looking Statements

The statements included in this release contain forward-looking statements about Mitsubishi Corporation's future plans, strategies, beliefs and performance that are not historical facts. Such statements are based on the company's assumptions and beliefs in light of competitive, financial and economic data currently available and are subject to a number of risks, uncertainties and assumptions that, without limitation, relate to world economic conditions, exchange rates and commodity prices. Accordingly, Mitsubishi Corporation wishes to caution readers that actual results may differ materially from those projected in this release.

NOTE:

- Operating transactions, as presented above, are voluntary disclosures solely for the convenience of investors in Japan. Operating transactions represents the gross transaction volume or the aggregate nominal value of the sales contracts in which the companies act as principal and transactions in which the companies serve as agent. Operating transactions exclude the contract value of transactions in which the companies' role is limited to that of a broker.
Operating transactions, as presented above, are non-US GAAP measures commonly used by similar Japanese trading companies and should not be construed as equivalent to, or a substitute or proxy for, revenues, or as an indicator of our operating performance, liquidity or cash flows generated by operating, investing or financing activities.
- Unallocated corporate assets included in the column of "Eliminations or Unallocated" at December 31, 2006 and 2007 were 1,343,059 million yen and 1,316,403 million yen respectively. The assets mainly consist of cash, time deposits and securities for financial activities.
- As of April 1, 2007, the companies have reorganized the Innovation Center in "Eliminations or Unallocated" and "New Business Initiative Group" with other related Groups ("Energy Business", "Metals" and "Machinery") and have established the "Business Innovation Group" and the "Industrial Finance, Logistics & Development Group." The consolidated financial position and the results of operations of related reportable operating segments for the three months and nine months ended December 31, 2006 have also been reclassified accordingly.

Results for the Third Quarter Ended December 31, 2007 (US GAAP)

Consolidated Income (Billion Yen)	FY2008 Nine months ended Dec. 31, 2007				FY2007 Nine months ended Dec. 31, 2006		Outlook for FY2008		Summary of changes from the same period of the previous fiscal year (Nine months ended Dec. 31)

Comparison with past performance (Nine-month results)

*Comparison after FY2001, when Mitsubishi Corporation began disclosing quarterly results

- Operating transactions...Historical high
(The previous highest was 15.3 trillion yen in the same period in fiscal 2007)
- Gross profit...Historical high
(The previous highest was 853.4 billion yen in the same period of fiscal 2007)
- Operating income...Second-highest result
(The highest is 306.6 billion yen recorded in the same period of fiscal 2007)
- Consolidated net income...Second-highest result
(The highest is 349.2 billion yen recorded in the same period of fiscal 2007)
- Core earnings...Second-highest result
(The highest is 506.1 billion yen recorded in the same period of fiscal 2007)

Major Changes from the Same Period of the Previous Fiscal Year

(Three months ended December 31)

January 31, 2008
Mitsubishi Corporation

(Billion Yen)	FY2007 3Q Oct.-Dec. 2006	FY2008 3Q Oct.-Dec. 2007	Increase or decrease	Percentage of change
Operating transactions	5,467.7	6,057.1	589.4	11%
Gross profit	287.5	296.4	① 8.9	3%
Operating income	101.6	88.1	② -13.5	-13%
Consolidated net income	114.4	107.9	③ -6.5	-6%
Core earnings	177.8	156.0	④ -21.8	-12%

① <Change from the same period of the previous fiscal year in gross profit>
Increased 8.9 billion yen, or 3%, despite lower earnings on transactions due to a lower sales price at an Australian coking coal subsidiary. The higher gross profit reflected the conversion of food-related affiliates into subsidiaries and a stronger performance in real estate-related businesses in Japan.

② <Change from the same period of the previous fiscal year in operating income>
Decreased 13.5 billion yen, or 13%, due to lower earnings on transactions stemming from a lower sales price at an Australian coking coal subsidiary.

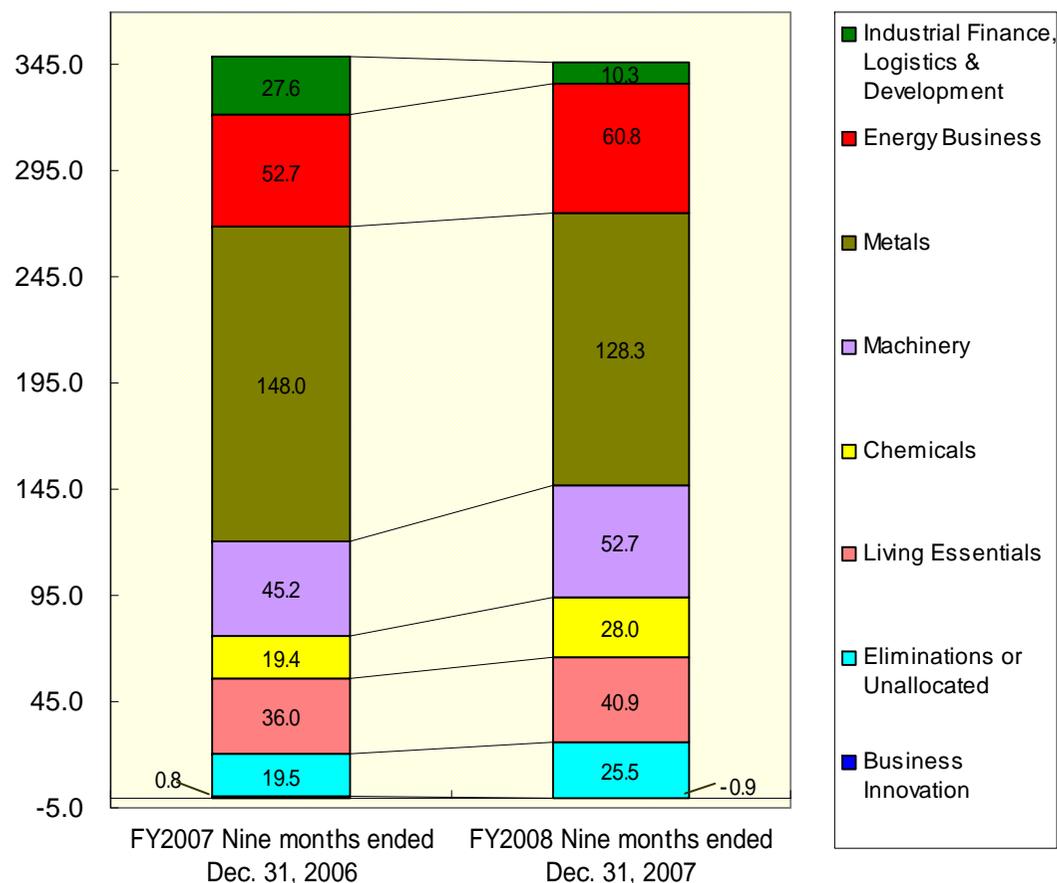

③ <Change from the same period of the previous fiscal year in consolidated net income>
Declined 6.5 billion yen, or 6%, year on year, despite an improvement in foreign currency gains and losses related to transactions. The overall decline was attributable to a 13.5 billion yen drop in operating income, in addition to a 13.1 billion yen decrease in gain on marketable securities and investments-net in the absence of a fiscal 2007 gain on the sale of shares.

④ <Change from the same period of the previous fiscal year in core earnings>
Decreased 21.8 billion yen, or 12%, year on year, the result of the lower operating income and declines in dividend income and equity in earnings of affiliated companies-net.

Year on Year Changes of Consolidated Net Income (Loss) (by Business Segment)-1

January 31, 2008
Mitsubishi Corporation

(Billion Yen)

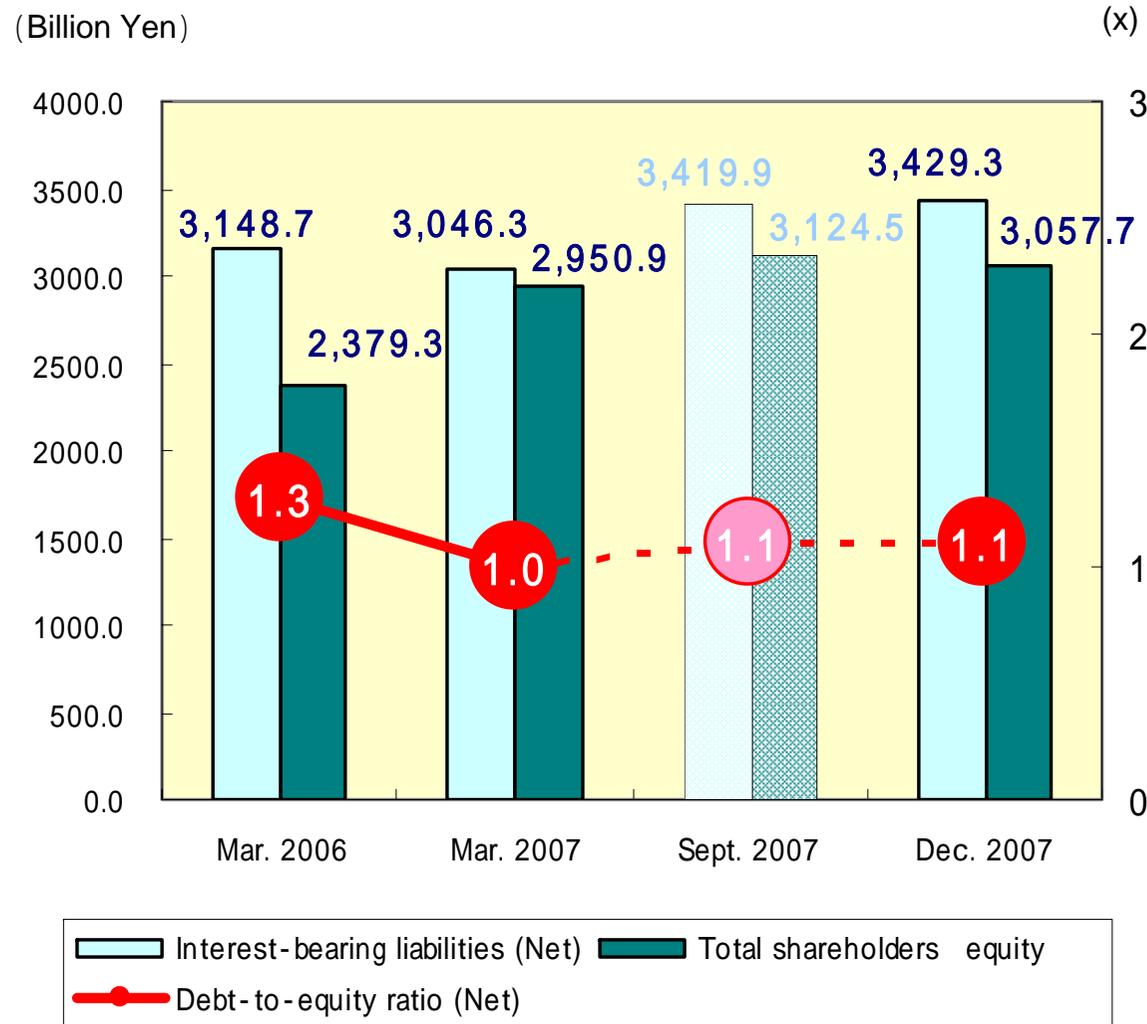

Reasons for changes by business segment

- Business Innovation (-1.7 billion yen)
Reflects absence of gains on sale of shares recorded in fiscal 2007, etc.
- Industrial Finance, Logistics & Development (-63%)
Reflects absence of gain on sale of Diamond City shares recorded in fiscal 2007. The main factors contributing to segment net income were gains on the sale of developed real estate and higher REIT-related earnings, as well as a strong overall performance in the logistics business.
- Energy Business (+15%)
Reflects higher earnings at overseas resource-related subsidiaries due to rising oil prices, a gain on the sale of part of Mitsubishi Corporation's equity interest in Sakhalin Energy Investment, and the recording of some foreign tax credits on overseas dividends in advance.
- Metals (-13%)
-Decrease in earnings due to lower sales price at Australian coking coal subsidiary.
- Machinery (+17%)
Increase in earnings due to new consolidations in overseas IPP business, as well as recovery of auto market in Asia and foreign exchange rate movements. Limiting an even higher increase was the absence of gains on the sales of shares recorded in fiscal 2007.
- Chemicals (+44%)
Increase due to tax benefits from higher equity interest in petrochemical business-related company and strong transactions at overseas subsidiaries.
- Living Essentials (+14%)
Despite absence of fiscal 2007 gains on sale of shares, higher earnings were due to strong results in food-related businesses.

Resource Prices (Nine-month average)

	FY2007 3Q	FY2008 3Q	Increase or decrease	Assumptions for FY2008 outlook
Crude oil price (Dubai) (\$/BBL)	62.7	72.7	10.0	69.1
Copper (\$/MT)	7,316	7,514	198	7,366
Aluminum (\$/MT)	2,620	2,584	-36	2,527

Reasons for changes in shareholders' equity (Compared with March 31, 2007)

1. Net income (345.6 billion yen)
2. Payment of dividends (-89.9 billion yen)
3. Decrease in net unrealized gains on securities available for sale (-36.9 billion yen)
...decrease in unrealized gains on listed shares
4. Improvement in foreign currency translation adjustments (23.9 billion yen)
...effect of weaker yen against Australian dollar, etc.
5. Decrease due to acquisition of treasury stock (-150.1 billion yen)
